CUSTOMS MAN
IS KNOCKED OUTVictim of an Assault by
Smugglers of Opium.Violently Attacked in San
Francisco Chinatown.Life of Main Witness Against
Lee Bing Is Spared.

(BY DIRECT WIRE TO THE TIMES.)

SAN FRANCISCO, Jan. 29.—[Exclusive Dispatch.] John F. Boulhard, the customs inspector, whose clever work landed a wealthy Chinese merchant on charges of bribery and opium smuggling last November, is recovering slowly in his home in San Mateo from a murderous attack made upon him in Chinatown Saturday night.

For nearly two months, warning constantly that he was the mark of assassins, he never went into the accused haunts of the smugglers unaccompanied by a special inspector being assigned by the Port District.

CARRIES TWO GUNS.

This, and the known fact that Boulhard carried two revolvers, in the use of which he was proficient with either hand, caused his secret enemies to plan revenge.

His foes, lulled by long immunity from attack, he went alone to the premises at No. 3 Spontoso alley to search for smuggled opium Saturday night.

He was knocked at the door by a man who came from behind and tried to force him into the building.

He was helped in the instant before his arms were taken from him.

He was then taken to the hospital, where he was treated by Dr. J. H. McInnis.

WINN THEIR HATED.

The exploit which won Boulhard the hatred of the smugglers was planned by him last fall and suggested by Lee Bing Hong.

Assuming the role of a longshoreman, encouraging those who had turned him to be an inspector to believe he had been dropped from the service, he waited for something to happen.

His patience was rewarded after two months, when a Chinese cook on the liner Korea approached him and whispered an offer of \$5 to carry a package to the home of Lee Bing Hong.

Boulhard took the bribe and the package. The merchant was placed under arrest and the smuggled opium, valued at \$2000, seized.

MAILED AS "LIEK"

Short and Ugly Word Used in the Napa Scandal to Deny Alleged Promise of Immunity.

(BY A. P. NIGHT WIRE TO THE TIMES.)

SACRAMENTO, Jan. 29.—[Exclusive Dispatch.] The Napa State hospital board of managers, today when a meeting of the board was held Wednesday night in Napa.

The exposure culminating in the resignation of Dr. Elmer E. Stone as official superintendent and his consequent removal from the hospital, today when the board of managers, today when a meeting of the board was held Wednesday night in Napa.

with instructions to report at some future date.

Mr. Hanson was given ten minutes to present a resolution asking the state to pass the arbitration treaties between the United States, England and France.

The Rev. C. E. Cline, who is known as the militant member of the Methodist Preachers' Association, said that while he did not go around with half a dozen six-centers in his pockets, he was unalterably opposed to this country entering into any entangling alliance with foreign countries.

"The whole North American continent, all of Canada, Mexico, and down to the isthmus rightfully belongs to the United States," he vehemently declared Mr. Cline, "and I, for one, am unwilling that we should do anything that might prevent the United States, when the time comes, from taking advantage of our natural heritage."

Other ministers present, Rev. Cline's warlike utterances and half a dozen warlike utterances at once, each trying to drown the voice of the others. Finally quiet was restored by reference of the resolution to a committee.

TAKE DOWN UNION CARDS.

Saloons of Salem, Or., Object to Dictation and Refuse to Pay the Higher Wages Demanded.

(BY DIRECT WIRE TO THE TIMES.)

SALISBURY, Jan. 29.—[Exclusive Dispatch.] Following a demand of the local Bartenders' Union for an increase in the wage scale, this city's five principal saloons today took down their union signs and repudiated the union.

Others also declared they will follow with similar action.

Wesley, president of the union, demanded a written card from Secretary Waldo Miller today, but was refused. Others also demanded withdrawals, but were likewise refused.

The general sentiment of the bartenders seems to be against a strike and but one bartender quit work today. The saloon men insist they are paying adequate wages and that if all the men quit, their places would be rapidly filled.

Many of the bartenders say they are satisfied with their wages. The bartenders admit that the future of the union is in jeopardy.

ATTACKED BY UNINITIATED.

Two Independent Machinists Are Beaten in Portland and One Is Fatally Injured.

(BY DIRECT WIRE TO THE TIMES.)

PORTLAND, (Or.) Jan. 29.—[Exclusive Dispatch.] Edward Abcock and Frank Domini, independent machinists employed in the O.W.R. and N. shops were attacked last night by ten union strikers at Goldsmith and Russell streets.

Abcock was struck in the back of the head with a stone. It is believed his skull is fractured and it is thought he cannot recover. Domini was beaten and sustained painful bruises.

The attack was the result of the refusal of Abcock and Domini, they say, to join the cause of the union machinists.

Following the trouble the men's assailants fled.

Domini went, bleeding and bruised, to headquarters and notified the police.

Abcock was taken to his home after being attended by a physician. No arrests have been made.

HER EYE BATTLE-LIGHTED.

Oregon Woman Enters the Third Fight for the Estate of Her Uncle and Stepfather.

(BY DIRECT WIRE TO THE TIMES.)

PENDLETON, (Or.) Jan. 29.—[Exclusive Dispatch.] Fighting and with a battle light in her eye, Mrs. Mabel Young Warner today entered upon her third trial for alleged forgery of the will to the estate of her late uncle and stepfather, James Young, whereby she was to inherit his property valued at upward of \$100,000.

The work of impeaching an unbiased jury is especially difficult, because of the prominence which the long fight for the estate has had during the past eight years. Most of the men examined admitted having formed an opinion and the defense immediately enters a challenge.

The "peachers" who are a comedy today and during the examination of the witnesses frequently advised them on the nature of questions to be propounded.

The jury disagreed in the two previous trials of Mrs. Warner on the forgery charge.

TO QUARANTINE FOUR COUNTIES.

FRUIT TREES ARE RAVAGED.

(BY A. P. NIGHT WIRE TO THE TIMES.)

SACRAMENTO, Jan. 29.—A quarantine order against the importation of all peach, plum, apricot, almond and cherry trees from Santa Clara, San Joaquin, Alameda and San Mateo counties was prepared today in the State Horticultural Commissioner's office and is now in the office of the Attorney-General to be passed upon as to its correctness.

The "peachers" which have been ravaging the orchards of those counties is the pest the remaining counties of the State are to be guarded against by the quarantine. Shipments of trees between those four counties are not prohibited. The order is expected to cause considerable displeasure among the orchardists of those counties as a large business is done among them selling young trees to growers in other parts of the State. The condition of the orchards, however, is said to warrant its issuance.

WANTS DAUGHTER ARRESTED.

Oakland Lady Hearing She Wedded a San Francisco Man Declares She Is Not Yet of Age.

(BY DIRECT WIRE TO THE TIMES.)

SACRAMENTO, Jan. 29.—[Exclusive Dispatch.] The elopement of a San Francisco man and the daughter of a business man of Oakland, Contra Costa county, to Sacramento, was brought to light today when Mrs. W. H. Johnston, mother of the bride, wrote to the local officials to verify the story of the runaway match from the records of the marriage license bureau.

Mrs. Johnston stated in her letter that her daughter, Myrtle C. Johnston, was not of legal age to marry, being only 14 and a half years old.

The mother read in a Martinez paper of the wedding and says she has notified Sheriff Valle of Contra Costa county, to arrest the couple.

The records show that on January 24, Harry Chapman, aged 27, a resident of San Francisco, got a license to marry Myrtle C. Johnston of Oakland.

Chapman appeared alone in getting the license, and swore Miss Johnston was only 18 years old on June 10, 1911, according to the records.

CHARGE MURDER OF MOORE.

Chauffeur Timothy Is Formally Accused of Killing Rich San Francisco Club Man in San Mateo.

(BY A. P. NIGHT WIRE TO THE TIMES.)

SAN MATEO, (Cal.) Jan. 29.—Samuel R. Timothy, the chauffeur, who shot and fatally wounded John J. Moore, the wealthy San Francisco clubman in a revolver duel Saturday night, was formally charged with Moore's murder, today, the warrant being sworn to by Chief of Police Boland, who arrested Timothy. He will be arraigned tomorrow, and it is said by District Attorney Swart, will be held without bail. The coroner will hold an inquest Thursday night.

Capt. H. N. Royden, formerly an officer in the militia, who was the first witness to arrive on the scene after the shooting, left town last night for Winemuccia, Nev. Royden left no word for the authorities except he expected to be gone ten days. No subpoenas have yet been issued for witnesses.

Mrs. Moore, who was declared by her husband in his dying statement to have been in the automobile with Timothy when he opened fire on the chauffeur, declined to see interviewers today. She became hysterical when she learned of her husband's death last night, but it has not been learned whether she will attend his funeral.

Moore's body will be cremated Wednesday afternoon, following services in a cemetery chapel in San Francisco.

SAY SLAYERS DECEIVED.

Woman Who Can't Speak English Files Complaint Against Stockton Federal Marshal.

(BY DIRECT WIRE TO THE TIMES.)

STOCKTON, Jan. 29.—[Exclusive Dispatch.] Alleging J. B. Webster, United States Commissioner, and his son, Percy R. Webster, both attorneys of this city, entered into a conspiracy with her husband, G. R. Rottor, to grossly deceive her as to the nature of the civil action she instituted against her husband, Mrs. Angela Rottor today filed a complaint to recover attorney fees against the Webster family.

According to the woman's sworn statement, she is unable to speak English and thus was misled by the Websters, whom she employed to begin a maintenance action against Rottor, but who, instead, instituted, without her knowledge, she says, a divorce suit and obtained a decree. Later, the woman avers, she was informed by her attorneys that Rottor had been killed by a car.

She says the money was scarcely in her hands when Rottor was killed, with whom she had been living all the time, promised to support her and asked for the money, which she turned over to him.

ANOTHER ARIZONA ELECTION.

Canniff Wants One to Decide an Issue Made Muddy by the New State Constitution.

(BY A. P. NIGHT WIRE TO THE TIMES.)

PRESCOTT, (Ariz.) Jan. 29.—A plan to allow the voters of Arizona to decide whether the State officers elected December 12 shall serve one year or three years will be proposed at the coming session of the State Legislature by Senator M. G. Canniff of this county, who undoubtedly will be elected president of the Senate.

There is a conflict in the State Constitution with reference to the tenure of office of the first State officers, although it was the intent of the framers to have them serve until January 1, 1913. There is a division of opinion and to obviate court action Mr. Canniff will offer an alternative referendum.

The majority will then decide whether the officers shall serve only until the end of this year or for two years more. If they decide on the former, at least the first State officers will serve less than eleven months, as they will not assume office until the middle of February.

SECRET WEDDING.

A SURPRISE IN WOODLAND.

(BY DIRECT WIRE TO THE TIMES.)

WOODLAND, Jan. 29.—[Exclusive Dispatch.] A surprise was sprung here today when announcement was made that Miss Dollie Praet, daughter of E. Praet, a business man, and William Harrison Eakle, were married December 22. The bride, who is well known in this community and that they had been married was not suspected. The wedding was celebrated in Redwood City to which place they motored from Oakland. The bride has not been in Woodland since until she arrived with her husband from San Francisco.

They will shortly go to their fine farm, three miles from town where they will be at home to their numerous friends.

FINDS GOLD NUGGET.

WEIGHS TWENTY-SEVEN OUNCES.

(BY DIRECT WIRE TO THE TIMES.)

OROVILLE, Jan. 29.—[Exclusive Dispatch.] A gold nugget valued at \$507 was found in the Morris-Ravine gravel mine, Saturday, by Richard Phillips, owner of the mine, and has been brought back to the city.

The nugget is about three inches long and five inches thick. It weighs twenty-seven ounces. It is now in the First National Bank. Phillips has taken several other large nuggets from the mine, one being worth slightly over \$500. This nugget is the largest uncovered in Butte county for a number of years.

SAN FRANCISCO BONDS.

MORE INTEREST IS OFFERED.

(BY A. P. NIGHT WIRE TO THE TIMES.)

SAN FRANCISCO, Jan. 29.—Interest in the bond issue of \$12,500,000, to construct a new Hall of Civic Center and buildings for the Panama Pacific International Exposition here, was fixed by the Board of Supervisors today at 5 per cent. The bonds will run for forty years. This rate is an increase of 3 per cent over the rate now prevailing in Pacific Coast cities for municipal bonds. The resolution was adopted by the Supervisors after reports from representatives of banking firms and other financial institutions had been read.

PASADENA MAN LEADS.

CORVALLIS DEBATE.

(BY A. P. NIGHT WIRE TO THE TIMES.)

CORVALLIS, (Or.) Jan. 29.—[Exclusive Dispatch.] The freshmen sophomore debate in Oregon Agricultural College Saturday evening resulted in a victory for the freshmen by a score of 2 to 1. The freshmen were taken by Oliver B. Hayes of Pasadena, Cal., with W. H. Belknap of Corvallis, Or., as his opponent.

The subject was, "Resolved, that the United States Senators should be elected by popular vote." The freshmen upheld the affirmative and the freshmen the negative.

TEETH Without Plates.

We Can Replace Them Without a Plate

The work is guaranteed to look natural, feel natural and for masticating purposes equal to Nature's own. We make Retention Plates, which do wonders towards restoring comfort to the patient's teeth and appearance. Our Combination Plates used where one or two teeth remain in the mouth, are self-supporting and rest dentistry is ours and our prices are very reasonable. Each piece of work is guaranteed. Don't let this fair enough!

Conducting His Own Fight Against Going to Prison, He Obtains a Habeas Corpus Writ.

(BY A. P. NIGHT WIRE TO THE TIMES.)

BELLINGHAM, (Wash.) Jan. 29.—When Deputy Sheriff Flanagan of this city took Harry J. Welty into custody at Colfax today on commitment from Whatcom county to serve a sentence of four to five years for bank wrecking, Flanagan was served with a writ of habeas corpus issued by the Whitman county court ordering his surrender to the Eastern Washington officials. Hearing on the writ was set for February 15.

Welty was convicted of wrecking the Home Security Bank of this city more than two years ago and has fought his conviction through every court, finally losing in the Supreme Court a few weeks ago.

Sanitary Welty has been practicing law and is conducting his own defense. W. D. Outman, who is attorney for the State, has been a member of the Eastern Washington bar, pleaded guilty to a similar charge and was fined \$2500 and costs.

CONTENT BENEDICT WILL.

RELATIVES FILE SUIT.

(BY A. P. NIGHT WIRE TO THE TIMES.)

SAN FRANCISCO, Jan. 29.—Relatives of the late Courtland S. Benedict, this city, filed suit today to contest the will, alleging his mind was weakened by an accident before his marriage. It is alleged he was dominated in all suits by Emma Hayes Benedict, his wife, twenty-five years his junior, to whom he left the greater portion of his estate, valued at \$150,000. The contestants are Mrs. Leone Holly and Mrs. Arabella Harrington of Flatbush, N. Y., sisters of the deceased; either E. Thomas, a niece, and Henry B. Jacobia, a nephew.

SCHOOL BOOK INQUIRY.

IT'S STILL MUCH ALIVE.

(BY A. P. DAY WIRE TO THE TIMES.)

SACRAMENTO, Jan. 29.—Senator Newton W. Thompson, Los Angeles, a member of the Senate Text-book investigation committee, when seen at the capitol today, said the investigation of the high cost of school books will be resumed early in March.

Senator Thompson said the investigation will be prosecuted to a completion and an extensive report will be made to the Senate at the next session of the Legislature.

Counterfeiter's Day in Jail.

(BY A. P. DAY WIRE TO THE TIMES.)

SAN FRANCISCO, Jan. 29.—[By A. P. Day Wire.] George Williams, accused of having manufactured counterfeit five-dollar gold pieces, described by secret service operatives as being the best imitator of money found on the Coast in fifteen years, served a sentence of one day in the Alameda County Jail today and paid a fine of \$25. Williams, as to Wilson's previous good character were responsible for the light sentence.

Actress Granted Divorce.

(BY A. P. NIGHT WIRE TO THE TIMES.)

WOODLAND, Jan. 29.—[Exclusive Dispatch.] Viola Leach, an actress employed in a local theater, was granted a divorce today from her husband, Percy F. Leach of New York. Desertion was the charge alleged. Recently the husband filed a cross-complaint denying the allegation of desertion, but making no specific allegation against the wife. Mrs. Leach's principal witness was her aged father.

Judge Thinks the Man Is Crazy.

(BY A. P. NIGHT WIRE TO THE TIMES.)

SAN FRANCISCO, Jan. 29.—[By A. P. Night Wire.] George Terry, former clerk for the International Banking Company, who confessed to having stolen \$12,000 from that institution, and who testified in court he had drunk 100 quarts of beer within six hours, will be examined by attorneys for the collection of an inheritance tax set aside was filed today by heirs to the estate. Mrs. Spreckels' property was valued at \$5,000,000. The heirs ask to have the inheritance tax set aside on the ground the property had been transferred to the heirs by Mrs. Spreckels prior to her death.

Want Spreckels Lien Set Aside.

(BY A. P. NIGHT WIRE TO THE TIMES.)

SAN FRANCISCO, Jan. 29.—[By A. P. Night Wire.] A petition for a lien filed against the estate of the late Mrs. Claus Spreckels by the State of California for the collection of an inheritance tax set aside was filed today by heirs to the estate. Mrs. Spreckels' property was valued at \$5,000,000. The heirs ask to have the inheritance tax set aside on the ground the property had been transferred to the heirs by Mrs. Spreckels prior to her death.

Waists 25c

And there are high neck waists with the long sleeves. Some with fronts of embroidery, others trimmed with lace and embroidery and combination effects. Very charming, considering the truly ridiculous price. Only a limited quantity at choice, 25c. Limit 3 to a customer. And remember, you couldn't ordinarily buy the material for that.

Waists 39c

They're marked 69c, although they were formerly \$1. Tuesday you may buy them at practically one-third their worth. High and low neck models. Tailored and flared. Some hand embroidered. So many different patterns that we are confused in describing them. Odds and ends, of course, but full sizes range in the lot—39c.

Tailored or Lingerie Waists 89c

One of the greatest varieties and some of the best values this department has presented in many months at 89c. A notable aggregation of all-over lace waists, hand-embroidered waists, voile waists, sailor waists, etc.

Coupled with broken assortments from our own stock have been added an express shipment of the famous "Everwash" waists, which were secured by our buyer away under their real value. All of these are to be thrown in at one great feature at 89c.

Women's Former \$19.50 to \$39.50 Suits Again Today \$15.00

Have you seen the window display of this most extraordinary collection of high-grade tailored suits at the price of ordinary commonplace garments?

Scores and scores of women have made their selections from the window display, have come right up to the Second Floor department and made their purchase. It takes only a few moments to realize the great value importance of these \$19.50 to \$39.50 tailored suits at \$15. They are high-grade in every respect. Cheviots, serges, some mixtures and diagonals form the variety of materials. Some strictly tailored, others in the novelty effects. It is an opportunity which we can hardly describe in cold type.

TUESDAY MORNING.

OUR HARBOR TO BE WORLD PORT.

Way of French Government
Expresses Delight.

It Will Prove Cheaper
Than San Francisco.

Inspects the Breakwater and
Calls It Good Work.

"Without a doubt Los Angeles harbor is destined to be one of the leading ports of the world," asserted Claude Casimir-Perier, special representative of the French government, yesterday after inspecting the harbor and breakwater, as the guest of Thomas E. Gibson, chairman of the Harbor Advisory Committee.

The unqualified approval placed upon the harbor by the French inspector is received with great satisfaction by the men who have been leading the best efforts to harbor development. It has been viewed and praised by an expert.

"I was very favorably impressed with your harbor," M. Casimir-Perier said last night. "You have the making of one of the world's greatest harbors at San Pedro. It has two splendid qualities that make for the port—ease of access and perfect shelter. Whenever these qualities are joined together, there you have a want for ships."

"The breakwater is an admirable piece of engineering. I saw the whole of it and I can say it is good."

"One of the greatest drawbacks of the harbor of France is found in the difficulty of getting in and out. At many ports locks and basins are required."

"The commerce of the Middle West is destined to be carried on through a medium of Los Angeles harbor. There is no question but that your harbor is cheaper to the shipper than San Francisco, and it has another great advantage in being the first harbor encountered on the upland trip from the Isthmus of Panama."

M. Casimir-Perier will inspect San Pedro harbor next Wednesday. While in Southern California he proposes to make inquiries concerning the use of it as fuel for ocean traffic.

He will speak at 11 o'clock this morning at the Throp Polytechnic institute in Pasadena. His subject will be "The War Problem of Europe," and arrangements have been made to accommodate a large crowd. The public is invited to attend.

Later, a luncheon will be given at his home at the Hotel Maryland, which will be attended by the members of the Los Angeles Harbor Commission and others.

IT OUT FOR HARMON.

A Democratic League of Ohio Issues Appeal to Knife the Governor and Root Clark.

BY A. P. NIGHT WIRE TO THE TIMES. COLUMBUS (O.), Jan. 29.—The Democratic League of Ohio issued today a statement in which it declares Gov. Harmon out of harmony with the progressive movement, and calls on the Democrats to nominate a "progressive" for the governorship.

"We know enough about the tariff question," says the statement, "to know that it was Champ Clark's leadership which aroused the entire country against the Payne-Aldrich bill, and we know that he is the only man in the country who is in harmony with the progressive movement."

"If any man is to be nominated for President on the tariff question, he should be Champ Clark, or some other Democrat who was in Congress at the time of the successful fight on the Payne-Aldrich tariff bill."

UNDELIVERED TELEGRAMS.

ANSWERS FILED IN GOVERNMENT SUIT.

Declares There Was No Conspiracy With Steel Corporation.

BY A. P. DAY WIRE TO THE TIMES. TRENTON (N. J.), Jan. 29.—Kellogg and Emery, counsel for the Kellogg group of land and iron mining companies named as parties to the suit of the United States Steel Corporation, filed their answers today to the government's allegations. There are three distinct answers, one by the West Meath Land Company, Limited, and seven other land and iron mining companies; the second by J. H. Gruber, individually, and the third by Louis W. Hill, James K. Walter, J. Hill and Edward T. Nicholas as trustees.

The answers are a general denial, so far as these defendants are concerned, of the government's allegations of a plan by the steel corporation and the other defendants to conspire to restrict competition.

Gruber and the other four individuals are charged with being trustees in a lease from the West Meath Land Company, Limited, and other defendants named as parties to the suit of the United States Steel Corporation.

In his answer Gruber admits having been named as a trustee but denies having joined in the lease. The other four individuals admit being trustees and having joined in the lease, but they deny that they were a party to the creation of any monopoly in iron or steel products or in the restriction of the output of the West Meath Land Company and other co-defendants.

They were made in good faith for the benefit of the stockholders without any purpose of restricting trade or creating a monopoly. They also deny having at any time combined or conspired in restraint of trade.

A NICE HOW-DE-DO.

Italian Cruiser Sings a Boat for the Turkish Revenue Service at Hodeida.

BY A. P. DAY WIRE TO THE TIMES. HODEIDA (Red Sea) Jan. 29.—The Italian cruiser Piemonte, belonging to the squadron of cruisers searching the Red Sea for vessels carrying contraband Turkish troops to Arabia, came to anchor off Hodeida, nine miles from this city yesterday. She lowered a boat flying a white flag which entered the bay and captured a motor launch belonging to Thornycroft & Co., which was flying the British flag. Thornycroft & Co. have supplied a considerable number of these launches to the Turkish government for use in the revenue service and this small craft was about to be handed over for the same purpose.

GREENFELL ITINERARY.

President Baer Arranges a Strenuous Campaign for the Patron Saint of Laborers—Brings Wife.

Sir Wilfred T. Greenfell, "Patron Saint of the Laborer," will arrive in Southern California today. Since his last visit two years ago he has married and Mrs. Greenfell is being heartily welcomed by a host of friends. Dr. Greenfell is in the hands of his friend, President John Baer of Occidental College, and a most strenuous campaign has been arranged. From the Grand Canyon, where the Greenfells spent Sunday, they begin their public addresses today in Riverside, where Frank Miller has arranged two meetings. Wednesday morning Dr. Greenfell addresses the students of Pomona College and lectures there again in the evening. Thursday he is at Redlands for two meetings, and Friday will spend the day at San Diego, where two receptions have been arranged. Pasadena will be reached Saturday afternoon, where they will be the guests of Arthur H. Fleming of Orange Grove avenue. Next Sunday morning, Dr. Greenfell will occupy the pulpit of the First Congregational Church, this city. Dr. William Horner, Dr. Greenfell's invitation. At 3 o'clock in the afternoon he speaks at a mass meeting for men only in the First Methodist Church. Monday, February 5, he visits Santa Ana; Tuesday and Wednesday the engagements are in Pasadena. Thursday night, the 9th, he is the lecturer for Throp institute in the Y.M.C.A. auditorium. Friday night, February 9, he speaks at the Federation of West's Clubs of Pasadena. The banquet to be held in the Y.M.C.A. building, Saturday night, 10th, he meets about 800 High School boys at a banquet arranged by the Y.M.C.A. of this city. Sunday morning, 11th, Dr. Greenfell speaks in the Presbyterian church of Pasadena, and that evening will be the speaker at the Pro-cathedral in this city. The Greenfells will leave for Santa Barbara on Monday, the 12th. Arrangements are also being made for Dr. Greenfell to address the students of Occidental College and the University of Southern California.

INSURGENTS FOLLOW THE LEAD OF THE MAJORITY.

BY A. P. NIGHT WIRE TO THE TIMES. WASHINGTON, Jan. 29.—The Democratic metal tariff resolution, to make reductions averaging 35 per cent. on the existing iron and steel tariffs of the Payne-Aldrich law, passed the House today by a vote of 219 to 199. Republican efforts to amend or debate the bill were brought to a sudden end when Democratic Leader Underwood refused to permit the offering of further amendments and forced the House to a final vote.

Twenty insurgent Republicans voted for the measure, while the Democratic delegation from Colorado, Representative Martin, Rucker and Taylor, dissatisfied with the great reduction proposed in the tariff, voted against the Democratic majority. The Republicans who supported the bill, all insurgents, were:

Representatives Davis and Lindbergh, Minnesota; Haugen, Hubbard and Woods, Iowa; Helgeson, North Dakota; Jackson, Murdoch and Young, Kansas; Kent and Stephens, California; Kinkaid, Norris and Sloan, Nebraska; Lafferty, Oregon; La Follette and Warburton, Washington; Lenroot, Morse and Nelson, Wisconsin.

The insurgent Republicans who voted against the bill were: Anderson, Miller, Holstead and Stearns, Minnesota; Cooper, Egan and Kopp, Wisconsin; French, Idaho; Good, Green, Kendall, Kennedy and Pickett, Iowa; Hayes, California.

A motion of Representative Payne of New York, former Republican chairman of the Ways and Means Committee, to recommend the bill to committee with instructions to hold until the tariff commission made report on the metal schedule, was defeated 202 to 194.

The regular Republicans protested to the last against the application of rules closing the debate. Amendments by Republican Leader Mann to restrict the Democratic free list, which includes typewriters, printing machinery, machine tools, sewing machines and other articles to countries that do not discriminate against the United States, were defeated 202 to 194.

The bill will face a stormy contest in the Senate, where it will arrive tomorrow. Fully 40,000 voters are expected during the Senate session.

Democratic Senators hope that the progressive Republicans will join with them in the Senate, which would enable the Senate to pass through the tariff bills at the extra session and to leave the issue to the voters.

Frank Dornier will leave for Germany in a few weeks and make an special effort to bring German singing societies here in 1915.

TRIBUTE TO HARLAN.

WHITE APPEALS TO PEOPLE.

BY A. P. NIGHT WIRE TO THE TIMES. His spoke of the "justice of the law," so ordinary in its incidents and yet so majestic as a servant of the whole people; so weak and yet so strong because founded on the affection of all the people and depending for its existence on their continued support.

UNDELIVERED TELEGRAMS.

Telegrams are at the Western Union office for Mrs. J. G. Billings, Mrs. Mary Lee, Mrs. C. H. Lovett, Mrs. J. L. Merritt, Mrs. B. H. Hendricks, Mrs. Annie Norman, Miss Pearl Daley, Miss Beatrice Withrow, G. E. Harbough, C. C. McCullough, Alma J. Morgan, A. W. Orlow, Alex. Horvolyak and A. C. Veach.

ANSWERS FILED IN GOVERNMENT SUIT.

Declares There Was No Conspiracy With Steel Corporation.

BY A. P. DAY WIRE TO THE TIMES. TRENTON (N. J.), Jan. 29.—Kellogg and Emery, counsel for the Kellogg group of land and iron mining companies named as parties to the suit of the United States Steel Corporation, filed their answers today to the government's allegations. There are three distinct answers, one by the West Meath Land Company, Limited, and seven other land and iron mining companies; the second by J. H. Gruber, individually, and the third by Louis W. Hill, James K. Walter, J. Hill and Edward T. Nicholas as trustees.

The answers are a general denial, so far as these defendants are concerned, of the government's allegations of a plan by the steel corporation and the other defendants to conspire to restrict competition.

Gruber and the other four individuals are charged with being trustees in a lease from the West Meath Land Company, Limited, and other defendants named as parties to the suit of the United States Steel Corporation.

In his answer Gruber admits having been named as a trustee but denies having joined in the lease. The other four individuals admit being trustees and having joined in the lease, but they deny that they were a party to the creation of any monopoly in iron or steel products or in the restriction of the output of the West Meath Land Company and other co-defendants.

They were made in good faith for the benefit of the stockholders without any purpose of restricting trade or creating a monopoly. They also deny having at any time combined or conspired in restraint of trade.

INDIGESTION GOES IN FIVE MINUTES

HEARTBURN, GAS, DYSPEPSIA
AND OTHER STOMACH MISERY
ENDED WITH A LITTLE DIAPESIN.

If what you just ate is souring on your stomach or lies like a lump of lead, refusing to digest, or you belch gas and eructate, sour, undigested food, or have a feeling of distension, heartburn, fullness, nausea, bad taste in mouth and stomach headache—this is indigestion.

A full case of Paper's Diapessin costs only 50c and will thoroughly cure your out-of-order stomach, and leave sufficient about the house in case some one else in the family may suffer from stomach trouble or indigestion.

Ask your pharmacist to show you the formula plainly printed on these 50c cases, then you will understand why Diapessin trouble of all kinds must go, and why Diapessin always relieves sour, out-of-order stomachs or indigestion in five minutes. Diapessin is harmless and tastes like candy, though each dose contains power sufficient to digest and prepare for assimilation into the blood all the food you eat; besides, it makes you go to the table with a healthy appetite; but, what will please you most, is that you will feel that your stomach and intestines are clean and fresh and you will not need to resort to laxatives or liver pills for biliousness or constipation.

This city will have many Diapessin cranks as some people will call them, but you will not be troubled about this splendid stomach preparation, too, if you ever try a little for indigestion or gastritis or any other stomach misery.

Get some Paper's Diapessin now, this minute, and forever rid yourself of Stomach Trouble and Indigestion.

EVERY CHARGE
FLATLY DENIED.

Testimony for the Accused in
the Hazard Trial.

Prosecutor Says She Signals
to the Witnesses.

Bailiff Instructed to Keep
Close Watch on Her.

BY A. P. NIGHT WIRE TO THE TIMES. SEATTLE, Jan. 29.—Testimony denying every charge made by the prosecution in the trial of Mrs. Linda Durr, charged with causing the death by starvation of Miss Claire Williamson, a wealthy Englishwoman, was obtained from six witnesses called by the defense at Port Orchard today. In the statement of counsel for both sides that the case is now nearing an end, Judge John B. Yakey announced that night sessions contemplated would not be held unless progress was retarded.

The direct testimony for the defense today was largely given by Watson Webb and Frank Liley. Webb's name was brought into the case in the testimony of Durr, who testified that she was the woman alleged to have been murdered, and who was also a patient in Mrs. Hazard's sanatorium.

NURSED THE SISTERS.

He was said to have been authorized to aid in nursing the Williamson sisters and it was charged by the prosecution that when a protest was made Mrs. Hazard replied: "He's only a nursed sister."

Webb declared on the stand that his calls on the Williamson sisters were at their request.

Frank Liley, a choreman about the sanatorium, who had been accused by Mrs. Durr of having been used in the establishment to assist in giving her baths and other improper services, directly contradicted the statement of the witness, repudiating an implied charge that he was a "cult faddist."

The charge that the defendant was signaling to the witness on the stand caused a brief delay today. The charge was made by the prosecutor, who testified that he saw Mrs. Hazard signaling to the witness on the stand.

Miss Sherman was reluctant to answer the question.

RHEUMATISM
CANNOT EXIST.

In the human body if you will use Frank's Prescription for Rheumatism and Gout, it is ridiculous, absurd and superstitious; in fact, it is a pity and a shame to talk about Rheumatism and Gout, much less suffer with it; either inflammatory, muscular, sciatic or other form of Rheumatism.

Frank's Prescription for Rheumatism and Gout sells for \$1.50, or six for \$7.50. This Prescription does not ruin the stomach, it does not depress the heart. Eat all the meat and good food you wish, taking Frank's Prescription. It does not contain any Mercury, Salicylate of Soda, Oil of Wintergreen or narcotics of any kind, but it absolutely and positively overcomes any kind of Rheumatism or Gout on earth. What more do you want? It is the best Rheumatism and Gout medicine ever made. It is also an excellent Liver Medicine.

TRACE CRIMES TO SACRIFICERS.

Bloody Rites of the Ignorant
Negroes of Louisiana.

Twenty-six Persons Slaughtered
Within the Year.

Detectives Bailed in Their
Quest of Evidence.

(BY DIRECT WIRE TO THE TIMES.)

NEW ORLEANS, Jan. 29.—[Exclu-

sive Dispatch.] A bucket set to catch

the dripping blood and brains, an ax

used as the instrument of sacrifice,

the beds in their homes, the altars,

and knowledge of negro superstition

are the only clues detectives so far

have found in the efforts to trail in

the Louisiana rice belt, the negro

"sacrifice sect," which has murdered

five colored families—twenty-six per-

sons—within the last year. Today, a

telegram from Lake Charles told of

the finding of a mysterious book, at

first thought to be the ritual of the

cult, but examination proved it to be

only a set of meaningless figures.

The investigators of the series of

crimes are baffled and ready to quit.

The cases rival anything else in Lou-

isiana history, with the possible ex-

ception of the "Council of God" crimes

here, and the sleuths have no leg to

stand on.

From Crowley, La., a man who has

been connected with a detective

agency for thirty years, returned to-

night and admitted his failure.

"The negroes simply will not talk at

all," he said. "I tried every known

method of loosening their tongues, but

to no avail. Men were made drunk,

but mention of the last crime blamed

upon the sacrifice sect, the Broussard

murder of five persons at Lake

Charles, restored them to sobriety.

Women cried and went into hysterics,

but when asked about details of the

"sanctified church," they simply shut

their mouths and kept them shut. If

the law ever makes out a case, it will

be unable to get a single conviction.

It is one of those cases the law cannot

covet."

VOODOOISM LINGERS.

Here in New Orleans there still re-

mains a trace of voodooism. It is all

but gone, and the younger negroes,

who compose a large part of the city's

population, know it not, but few of

the ante-bellum darkeys can be per-

suaded to pass through the famous

Congo Square at night without cross-

ing themselves. Sometimes, even now,

with modern homes only a block

away, and with street car gongs

changing in hearing, an early riser may

go through the square and see little

sacrifices scattered about. Sometimes

it is merely a piece of meat, and

might pass for a carelessly dropped

lunch, but more often there are

feathers, a lost earring and cat feet

and beads—why, no one seems to

know—still they are found.

In the rice belt, progress has been

much slower. Most of the swampy

land there is owned by the big plan-

tation men who inherited it from their

fathers and grandfathers, and not one

negro of a hundred ever has been to

New Orleans. Most of them are simple

and fairly honest folk, but incredibly

superstitious. Their churches have

crosses above them, but the rites prac-

ticed inside would be as intelligible to

a Pagan as to a Nazarene. The ser-

mons, in many instances, are appeals

to passion. Shooting is indulged open-

ly. It is not uncommon for half a

dozen persons to be overcome with

this so-called religious frenzy, and

faint during a service.

This is the setting into which the

"sacrifice" rites are put. The rites

they are, but it is equally easy to

say no one ever will be punished

for practicing them. There seems ev-

erything to show that the murders

were committed for no purpose other

than to carry out a barbarous atone-

ment. The colored population of the

rice belt is terrified, but there still is

noticeable a feeling that the human

sacrifices had their benefit.

The murders are fostered in form

and execution. The effort seems to be

to slay five persons, whenever that is

possible, and no more. The finding of a

signature "human five," above the

door of the house in which the five

Broussard negroes were murdered

Sunday colors this theory.

In the Broussard murders the slay-

ers showed their hand plainly. Every-

thing was set as on a well-ordered

stage. All five of the victims were

stretched upon their beds. In one

room lay husband and wife, brained

with an ax. The ax was under the

bed. There was little blood upon the

floor. This, as shown by chemical

examinations, had been caught in a

bucket. The bucket was taken to the

children's room, where it did similar

duty and was left standing. The chil-

dren and their parents looked as if

they did not struggle at all.

Furthering the belief in the "human

five" theory, the fingers of every hand

were stretched far apart, those of the

children being wedged open with

paper and fastened with pins. The

blade of the ax was almost clean, the

blunt head having been used to batter

in the skulls.

Then, fastened above the door, in

crude writing, was the mocking ques-

tion "When he maketh the inquisition

for blood, he forgetteth not the cry of

the humble."

Not a member of the congrega-

tion of the Rev. King Harris, the

negro minister held in connection with

the crime will say a word against

him. All admit he was a "strong

preacher," but no man's word vouches

for the charge he urged human sacri-

fices. His church, a mongrel Bap-

tist, has 600 or more communicants,

yet a boy of 7 years knows that it

will not do to tell what is taught

there.

TO THE CHILDREN.

Old negro "mammas" who would

not open their lips to the most ex-

pert sleuth in the world, talk to their

white "chilluns," whom they nurse

and gradually they become current in

the community. Stories all are not

right in the negro church near Jen-

nings. Young men and women were

said to have fainted and to have spent

several hours in unconsciousness. Re-

spectable older negroes were said to

have declared they were going to in-

fer to no more sermons. There had

been no attempt to remove

anything of value belonging to

the murdered persons. Ordinarily a

negro murderer will take money if

his victim has it, but coins were found

in the pockets of all the slain men,

and ornaments and watches in their

rooms were untouched.

From the present outlines of the

facts it seems not improbable five

persons participated in the murders.

Furthermore, it seems certain the

elders of the families must have been

killed at the same time. There has

been anything to show either hus-

band or wife struggled.

Pelle Broussard, head of the fam-

ily, a fairly intelligent negro, was not

given to signs and omens. He was

healthy, contented and earned a good

living for his family. None of the

five ever was sick. Yet, the day be-

fore the tragedies, he told some

friends he was "sick" and was to

go to the city. Although

Saturday is not the usual negro wash-

day, his wife washed all the clothes

for every member of the family.

From this it has been argued the

victims knew, in advance, of their

fate.

From present indications the grand

jury will return no true bills. Mean-

while, thirty negroes are preparing

to emigrate. This phase of the mat-

ter is the one that most seriously

affects the planters. The nation's

rice is supplied by Louisiana, most of

it coming from the Crowley-Lake

Charles section. A general move of

the negroes to depart might cripple

the industry. Another source of

trouble is the fact that the blacks

throughout the section are arming.

There would be no objection to their

possessing firearms to protect them-

selves from attacks by the fanatical

religious sect, but the blacks own a

shotgun or a pistol, in a community

where the whites are in a minority, is

a menace.

WIFE MURDER CHARGED.

PLEA OF NOT GUILTY.

(BY A. P. DAY WIRE TO THE TIMES.)

NEWARK (N. J.) Jan. 29.—[Alli-

giant McFarland was placed on trial

for his life today, charged with the

BLOCK TO COST HALF A MILLION TO GO UP ON WEST SEVENTH.

Splendid Office Block for Southeast Corner of Seventh and Grand.
Eleven-story building projected by John Brockman for site directly opposite that of mammoth department store to be erected by the same prominent capitalist, and which was pictured exclusively in the Sunday Times. Harrison Albright is the architect of both structures.

Westward Business.
FOLLOWING closely the announcement of the determination of John Brockman, local capitalist and retired mining man, to build a mammoth reinforced concrete department store extending from Grand avenue to Hope street on the south side of Seventh street, comes the news that Brockman is having plans drawn by Harrison Albright, the architect of that project, for an eleven-story store and office block on the southeast corner of Seventh and Grand.

The publication in Sunday's Times of the architect's perspective of the great department store was a sensation in realty circles. The announcement of still another pioneering building enterprise in the same vicinity shows that Brockman is in earnest in his belief that he can bring the business center far to the west of the present line of movement.

The latest Brockman block will be as modern as any in the city and will

cost about \$500,000. It will have a frontage of 135 feet on Seventh street by a depth of seventy feet on Grand avenue. It will be of reinforced concrete and somewhat similar in type to the Consolidated Realty building at Sixth and Hill, and the great hotel to be started next week by E. P. Clark on Hill just above Fifth, both structures planned by Albright.

The Brockman building will have a full basement, which will be utilized for a large grill, barber shops, billiard rooms and a public lobby, as well as the elevator machinery room. The building will receive mechanical service, electric current, steam for heating, hot water and pumping service from the power plant in the large department store opposite.

The first story will contain six store-rooms, each 135x75 feet, and all facing on Seventh street. The corner store will have also an entrance on Grand avenue. The main entrance to the building will be on the Seventh street

side. The lobby will be beautifully finished in marble and will lead to two high-speed electric elevators.

The ten upper stories will each contain twenty-seven offices, making 270 offices in all. The arrangement of these will be flexible so that any desired combination of rooms may be offered tenants. The structure will have every modern appointment.

Throughout the building unusual attention will be given to the securing of a maximum of daylight illumination. The ceilings will be high and two large courts at the rear will give ample southern exposure.

Of the site of the project thirty feet on Grand by 125 feet on Seventh is held under lease by Brockman for a term of fifty years, the owner being Mr. Taylor. The rest of the ground is owned outright by the builder. The actual construction of the building will be begun in about sixty days, following the completion of working plans by the architect.

FINANCIAL. MCKINNON WILL HAVE GOOD LOOK

LOGAN AND BRYAN PARTNER IS CALIFORNIA VISITOR.

Young Man Who Has Had a Phenomenal Rise in the Eastern Financial World Will Spend a Few Weeks in Southern California. Market Conditions.

R. W. McKinnon, a member of the firm of Logan & Bryan of Chicago and New York, arrived in the city yesterday from Chicago. He will visit all of the local branches of the firm on the Pacific Coast, and will later be joined by his wife and will spend the remainder of the winter in Southern California.

Mr. McKinnon is still a young man and his rise in the financial circles of the East has been the subject of much comment in several magazines. He is regarded as an authority on market conditions, and has taken in the well-known firm of Logan & Bryan at an age when most young men are just starting their college term.

Asked yesterday for a size-up of the present market conditions, Mr. McKinnon said:

"While there is some hesitancy in evidence, the general outlook for business is good. Steel mills are busy and while prices for the product are low, consumption is liberal and labor, as a consequence, is scarce. The copper situation seems to be in better shape than for several years, with the product selling at a higher basis than has been established for about four years.

"The winter wheat acreage is large and the condition announced on December 1 suggests a crop of about 100,000,000 bushels. The prevailing low prices for corn and oats likely to result in a larger increased acreage in both these important crops in view of the general improvement in general trade throughout the Middle West, and the most hopeful feeling is in evidence."

Within the past few weeks Logan & Bryan have established a branch office at Pasadena, and Mr. McKinnon will spend some of his time while in Southern California in looking after the needs of the new branch. He has visited the Coast often, and is a true believer in its future.

PARLORING PARIS.

The "Turkey Trot" and "Grizzly Bear" Are Now All the Rage in the City Capital of France. DIRECT WIRE TO THE TIMES. PARIS, Jan. 29.—[Exclusive Dispatch.] The "Turkey Trot" and "Grizzly Bear" dances are proving triumphantly through fashionable Paris. These interchanges of steps are the climax of the fad for American dances started several years ago with the "Boston Double." The "Grizzly Bear" was followed and supplanted a few months ago by "Tango," a South American creation based on Spanish rhythms. Strollers on the boulevards find much amusement in recognizing the steps of the dancing couples that appear on the surface. The Paris representative of a New American firm today, "Americanizing" regarded Paris as the instructor of the wildest social frolics and customs, but the steady drift of

late years has reversed the situation. "Parisians, who are really a conservative sort of folk, adhering blindly to traditions, now look to New York and Chicago as the sources of the world's maddest and merriest fads. In short, we have out-Paris'd the Parisians."

OUTWITS HER FATHER.

Missouri Girl Helps Lover on Her Horse While Papa Gallops On in Vain After Her.

DIRECT WIRE TO THE TIMES.

MOUNTAIN GROVE (Mo.), Jan. 29.—[Exclusive Dispatch.] While racing along a country road yesterday afternoon with Miss Melvora, with whom he was sloping, Clarence Helton's horse was shot and the man was severely wounded by a bullet.

Helton dropped beside the road while Miss Melvora spurred her horse into the flight. A moment later the father of the girl, a farmer, came up, and paying no attention to Helton, rode on, supposing his daughter had fled down the road.

After Melvora had disappeared the girl helped Helton on her horse and rode to the home of a physician, who dressed Helton's wounds. He is not dangerously injured. Miss Melvora then rode home and telephoned for a constable, asserting that her father had shot Helton.

"AUNT DELIA'S" TRIP.

On Earnest Invitation of the President She Will Make Trip From Millbury to Washington.

DIRECT WIRE TO THE TIMES.

WORCESTER (Mass.), Jan. 29.—[Exclusive Dispatch.] Miss Della C. Torrey, of Millbury, the aunt of President Taft, will leave her home some time this week and take the trip to Washington, where she will be the guest in the White House of her favorite nephew and his wife, Miss Torrey, who is nearing the age of 80, has done little traveling this winter on account of the extreme cold weather, but says she will go to Washington this week in answer to the earnest invitation of the President and Mrs. Taft.

Robert Taft, son of the President, who has been a guest of his father's aunt in the old colonial Torrey residence in Millbury, will accompany her on the trip to the capital city. It is expected Miss Torrey will remain in Washington several weeks, and in all probability will be accompanied back in the latter part of March by the President.

WASHINGTON, Jan. 29.—[Exclusive Dispatch.] The President today sent to the Senate the following nominations of California postmasters: John Almacough, Banning, and Charles E. Bauer, Courtland.

Warmth and Strength

on a cold day come from foods that are easily digested and are rich in heat-making elements. For the out-door man or the in-door man, for children to study on, to grow on, to play on, there's nothing so nourishing and satisfying as

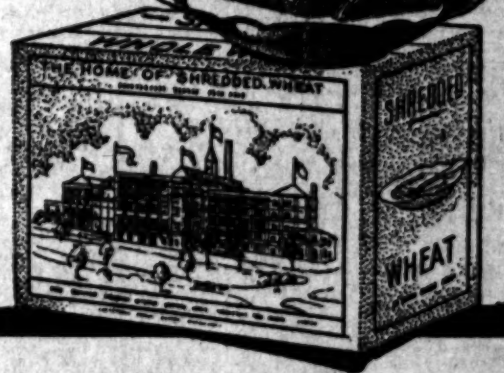

Shredded Wheat Biscuit

It is better than porridges for children because they have to chew it. The crispness of the shreds induces thorough mastication which develops sound teeth and makes digestion perfect. It is the best "whole wheat bread," because it contains all the rich body-building material in the whole wheat prepared in a digestible form. Delicious and nourishing when served with hot milk or canned fruits.

Cities and Towns of Los Angeles County.

NEWS REPORTS FROM CORRESPONDENTS OF THE TIMES.

WOMAN DIES FROM BURNS.

Pathetic Tragedy Marks Day in Crown City.

Victim's Clothing Ignites from a Gas Grate.

Quarter of a Million Dollars for Throop.

(Office of The Times, No. 12 S. Fair Oaks Ave.)

PASADENA, Jan. 29.—Yesterday was marked by a pathetic tragedy. Mrs. Agnes Miller, who lived at No. 113 South Catalina avenue, ran from her house out into the twilight at 8:30 o'clock in the morning with her clothing and hair afire.

She died at the Pasadena Hospital at 3 o'clock yesterday afternoon.

The dead woman was the wife of Oscar Miller, foreman at the Dolores-Felt Works, in West Alhambra. He had just left his home for work and no one else was in the house at the time of the accident except their 3-year-old daughter, Edna.

It is believed by the neighbors that Mrs. Miller was dressing near a gas grate in the dining-room and that in dressing on some of her clothing an edge came in contact with the flames there. She was only partially dressed when she ran shrieking through the back door of the house.

When she burst through the door of the house and into the back yard, she was already on fire. She called loudly for help.

F. W. Grafman, who lives in a house in the rear of the Miller home, was the first to reach her. When he saw her, her face gleamed through licking flames that towered several feet above her head and every article of her clothing was on fire.

He attempted to extinguish the flames by rolling her in the dust, but she broke away from him. By the time she reached the porch of her home, the flames appeared with a quilt, which she threw over the burning woman's head and with which she finally succeeded in putting out the flames.

The whole episode of the tragedy lasted less than two minutes. An ambulance was called and the victim taken to the Pasadena Hospital. Soon after arriving there she lost consciousness and remained unconscious until her death. Her husband and little girl were at her bedside when she died.

Grafman was severely burned on the right arm from contact with Mrs. Miller's clothing when he tried to aid her.

IS STRUCK BY CAR.

Mrs. L. Hammond, who lives at No. 675 West California street, was struck by a Pacific Electric train at 6 o'clock last night at the corner of California street and Fair Oaks avenue and seriously injured. She was taken to the Pasadena Hospital, where it was announced last night that she has probably sustained a fracture of the right shoulder. She is also believed to have lacerations on the face. An X-ray photograph will be taken this morning to determine the extent of her injuries. Her condition is not believed to be dangerous.

Mrs. Hammond had just alighted from a northbound train and was crossing the tracks at the rear of the last car to reach the other side of the street, when she was struck by the southbound car, with Motorman Wilson at the controller.

VACATION FOR HORSES.

The horses of the city fire department are to have a vacation once a month, which they will spend at the city farm.

Whatever conditions may be at the farm, the City Commissioners decided yesterday they would repay the fire horses for their faithful and efficient service to allow them these holidays there, and accordingly an appropriation of \$4 a month for each horse was made.

The firemen are to blossom out soon in new caps. Chief Clifford yesterday recommended the adoption of a cap with drooping visor and was authorized to purchase three dozen and a half at \$1 each.

Chief of Police Wood also was on hand with samples of cloth in drabs and blues and talk of changes in the uniform of the police. No definite action was taken by the commissioners in regard to the policemen's uniforms.

The true fumigation controversy that originated with the complaint of Horticultural Commissioner A. R. Scherer again came up for discussion. Park and Tree Superintendent John Brecht submitted a communication. He urged that sprayers be required to submit reports to the City Attorney.

The letter was referred to City Attorney Carr.

OUTLOOK IS GOOD.

The annual report of the board of trustees of the Throop Polytechnic Institute, which has just been made, contains a statement by President James A. B. Scherer of the institution that the college is now in a position to claim a \$250,000 addition to its endowment, which was promised by several persons whose names have never been made public, upon condition that the trustees raise the \$100,000 necessary to pay off the entire indebtedness. President Scherer says in part:

"If the financial supporters of Throop were willing, as they said, to continue to give to it the abundance, even when turned over to the State, they are certainly now the least willing to let it remain under private control. Within a short time of the close of the fiscal year the institution has an unfulfilled promise made possible a proposal whereby the institution may add immediately a quarter million dollars in cash to its endowment, on the simple and apparently easy condition that the board of trustees add \$50,000 to this sum, so as to clear up the debt. One promise of \$25,000 has been made for the purpose of fulfilling the condition, which has been still further reduced, until now a gap of only \$12,000 lies between the institution and its immediate financial goal."

A foot note in the report reads: "Notable among the numerous donations of the year was the payment by John Wadsworth of a sum sufficient to bring the endowment of the chair, which he established a number of years ago to a total of \$30,000, the income from which employs an

assistant professor of mathematics."

MEN OF GENIUS.

One of the recent events in Pasadena was the meeting of two Iowa authors last evening at the Hobbs home, No. 342 North Madison avenue. They were Rev. G. L. Wilson, Ph. D., author of "Christ in Chronology," and "Science of the Sabbath," and writings along the line of astronomy of the Bible, poetry and reviews; and Maj. S. M. Myers, for twenty years Consul-General to Switzerland and Italy, author of the "Iowa" school song, "Sherman's March to the Sea," and various volumes of verse and travel literature, who, by request, gave a private recital to a select number of friends, of a trip to the scene of Christ's life. He told with great pathos of the visit to Bethlehem and Calvary; how the garden of Gethsemane looked; the sanctity of the tomb; the behavior of the soldiers of the Temple of Jerusalem; the stables of Solomon and various other places of interest.

CITY BRIEFS.

Albert Erickson, one of the boy tramps arrested last Sunday for bicycle stealing, was taken before Justice of the Peace Dunham yesterday and sentenced to serve ninety days in the County Jail. His companion, Charles Miller, who is under 19 years of age, was taken to Los Angeles, where his case will be heard in the Juvenile Court.

A campaign for new members is soon to be begun by the Public Athletic League of Pasadena. The organization is doing much for the development of school children.

The ladies of the Emergency Relief Association will hold a reception tomorrow afternoon. The institution is at No. 419 Mendell drive.

The annual election of directors of the Pasadena Young Men's Christian Association will be held at the Y.M.C.A. building tonight. Fifteen directors will be elected.

The Komical Knights of the Carnival yesterday issued the following financial statement with reference to the part the organization took in the Tournament of Roses programme: Amount received from memberships, \$182; amount received from other sources, \$264.65; total, \$1103.65; expenditures, \$614.02; balance on hand, \$489.63.

WATER PROBLEM.

A VITAL MATTER.

SUPERIOR JUDGE HUTTON TALKS TO SANTA MONICANS.

Points Out the Present and Growing Need of His City and a Logical and Business-like Way of Satisfying It—He Also Favors Annexation.

SANTA MONICA, Jan. 29.—Water is the question at issue here now, and whether the city is to be satisfied with the present private corporation system of supply from wells or desiring to make a requisition upon Los Angeles for such Owens River water as may be required to meet the increasing demands of the growing city, is a matter for determination by the city.

Availing himself of the provision of the freholder charter which provides for the creation of a water commission to handle this proposition, Mayor Dyer tonight appointed the following commission: C. P. Schoder, A. M. Montgomery and J. A. Morton.

This afternoon the water question was the subject of discussion before a meeting of the Women's Club. The speaker was George H. Hutton, Superior judge, who has made a study of the Owens River aqueduct as well as its bearing upon this district. He gave the public the first intimation of the proposed aqueduct.

He received that the Aqueduct Commission had already made maps providing for bringing the water of Owens River to this city.

In the first place, Hutton made the route through the mountains from the San Fernando Valley might be the shortest route, through the San Gabriel Canyon, back of Beverly, from which point it is an easy problem to carry the pipes down grade to Santa Monica.

He also pointed out the fact that the purchase of local water plants, but thought the mains should be purchased at a low price. His remarks were concluded by recommending the annexation of Santa Monica to Los Angeles.

In the second place, Hutton pointed out the fact that the city of Los Angeles, both by the provisions of its charter and by the conditions attending the grants by the general government of valuable public lands, rights of way and other privileges, is limited in its disposition of the surplus water from the Owens River supply to two classes of customers: First, municipalities; second, individual customers. It is absolutely prohibited from furnishing water for resale to any person or corporation save municipalities.

"It has been determined by our Supreme Court that irrigation districts are quasi-municipal corporations, and the city consequently would have the right to dispose of water to corporations of that character, in view of which the Irrigation District Act has been modified by the Legislature at its last regular session and also at the pending special session in order that the city might be able to dispose of the surplus water for the purpose of taking over and administering a portion of the surplus waters of the Los Angeles aqueduct."

"While no particular detailed plan for the disposal of the surplus waters has as yet been elaborated and adopted, there seems little doubt that such a plan, when formulated, will be based on general principles substantially as follows:

"In the first place, it seems manifest that in the selection of the territory to which the Owens River water shall be supplied, there should be taken into consideration the fact that ultimately the territory would be brought into the jurisdiction of the city of Los Angeles, so far as its water department is concerned, whether by annexation, consolidation

Judge George H. Hutton.

Santa Monica Jurist.

In an address before a woman's club, advised the union of his town with Los Angeles.

tion of some application, of the borough system of government. But while it is the purpose to keep this in view, it is equally manifest that such gathering in of the outlying territory under the jurisdiction of the city must be a work of years, whereas, in all probability in eighteen months' time we will have the Owens River waters at our very gates with at least 15,000 miner's inches surplus for disposal outside of the present city limits.

"It seems also apparent that it would be altogether impracticable for the city to extend its water system by bringing the water to supply the individual consumer. It will therefore be confined in placing its surplus water to dealing with municipalities already established, or to be established, or irrigation districts to be organized which, by the way, is a decision of our courts, can also include cities, whether incorporated under the general act or under special charters.

"The boundaries of these districts of supply will naturally be governed by the topography of the country with relation to the main conduits, wherever situated, should be charged to each municipality or district furnished with water should pay the city as a bonus, a sum of money which would represent the fair proportion to be borne by such district or municipality of the initial cost of the water rights and the bringing of the water to the San Fernando reservoir, thus relieving to that extent the city of Los Angeles from its burden of \$24,500,000 indebtedness incurred for the purpose.

"Then also, each district or municipality should bear or share in the burden of the expense of building the conduit, which would bring the waters from the San Fernando reservoir to the respective districts or municipalities supplied. Having thus placed themselves on an equitable basis, the municipalities or districts, wherever situated, should be charged by the city a uniform rate for the water taken by them and delivered by the city into their respective conduits.

"As an illustration of the application of these general principles, it may be interesting to call attention to the scheme for the construction of the main central conduit of supply, the line for which has already been surveyed, and determined as to cost, extent, of which are now being worked out by the engineering department of the Board of Public Service, and which, if adopted, will supply the department are carried out, to supply the Santa Monica country with water so far as is required.

"The project will start from the San Fernando reservoir, being connected if necessary by a by-pass directly with the aqueduct before it enters the reservoir. It will run along public roads (the right of way for which for municipal water systems has been vested in municipalities by the State) and then, turning south, tunneling through the Cahuenga district, to the city of Los Angeles, where it will enter the city limits.

"Before it enters the Cahuenga district it will afford a supply east and west of its line, including a part of the southern portion of the San Fernando Valley and on the other side running to the Pasadena line. This as will be seen, is the conduit which the present city must depend for its supply, estimated upon its present needs at 2000 miner's inches.

"It is manifest, therefore, that the territory supplied through this conduit, the larger, of course, must be the capacity of the conduit, but the city of Los Angeles, by its present needs, will diminish greatly with the increase in the number of acres.

"It is the present intention of the Board of Public Service Commissioners, as soon as the scheme is worked out in further detail, to present the subject directly to the inhabitants of the territory which can be properly supplied through the conduit so as to ascertain how much water can be disposed of through it, and in this way determine upon the size of the conduit and the cost per acre to the territory to be supplied. The city, of course, would expect to bear its proportion, based probably on a supply of 2000 miner's inches, as we have already said.

"After the scheme of this main central conduit is fairly under way, the board will take up in turn the other adjacent districts and work out their problems in a similar manner.

"It is apparent that each district, if supplied, must enter into a binding contract for a certain definite amount of water, the annual rates whereon must be assumed as a burden on the district or city supplied. And it is equally apparent that it would be impossible for the city of Los Angeles to enter into any general contract to supply the whole of the territory to be supplied."

Mr. and Mrs. R. L. Tenner of the Peninsula are at the Seminoles for the winter. Penney is a lawyer.

Advisers were received by friends from Delhi, India, yesterday that Mrs. W. H. Perry and Misses E. H. and Florence Wood of Los Angeles were introduced to the Queen of Empress, December 16, each kissing her hand.

Piles Cured at Home

Quick Relief—Trial Package Mailed Free—A—Is Plain Wrapper.

Piles is a fearful disease, but can be cured if you go at it right.

An operation with the knife is dangerous, humiliating and rarely a permanent success.

There is just one other way to be cured—painless, safe and in the privacy of your own home—it is Pyramid Pile Remedy.

We mail a trial package free to all who write. It will give you quick relief, show you the harmless, painless nature of this great remedy and start you well on the way toward a perfect cure.

Then you can get a full-sized box from any druggist for 50 cents, and often one box cures.

Insist on having what you call for. Just send your name C. A. Godlove, Pyramid Drug Co., 434 Pyramid Bldg., Marshall, Mich., and receive free, by return mail, the trial package in a plain wrapper.

WILL PRODUCE COMEDY.

Pomona Moose Will Tread the Boards in Force to Augment the Club Fund.

POMONA, Jan. 29.—Rehearsals are being held nightly for the production of the comedy "Don't Tell My Wife," to be given for the benefit of the local Moose lodge, at the Fraternal Aid Operahouse under direction of Miles Berry, on Friday and Saturday evenings. The cast includes Misses Frances Duffy, Nettie Law, Elma Pleasant, Mabel Dowd, Mrs. H. E. Schlichtenberg and Messrs. Frank Jewell, Ira M. Stabler, Charles Scates, Robert McGovern and C. Godlove. The performances will be for the benefit of the local Moose Clubhouse fund.

NEWS BRIEFS.

The Pomona Woman's Club met this afternoon at the home of Mrs. J. W. Wilkinson, No. 792 West Monterey avenue. The programme was in charge of Mrs. Mary B. Berry and the subject considered was "Historic Boston." Each member responded to the roll call with an appropriate quotation.

Private funeral services over the remains of Mrs. Theodore F. Kalbfleisch, who died here on Tuesday, were held this morning at Todd's chapel on North Garey avenue. Mr. Kalbfleisch having arrived here on Saturday afternoon from Glens Falls, N. Y., where the ashes of his wife will be taken by him, for interment.

George Pruitt of No. 462 East Center street has settled his claim against the Salt Lake Railroad Company for the death of his son, Walter Pruitt, on a train in Los Angeles, in March, 1908, for the sum of \$400, the railroad company paying all attorney fees.

The delay in steps to erect a tourist hotel here is causing the loss of many visitors who would pass several weeks or months here if accommodations could be obtained. Many local residents have received letters from acquaintances and friends who will come to Pomona if hotel accommodations can be provided.

The Hotel Ais project seems at a standstill and Dr. Funderberg's plans for a hotel on the old Palomares site, are not wholly formulated.

ROW ON OVER POSTOFFICE.

South Pasadena Are Not in Accord as to the Best Location for the Stamp Store.

SOUTH PASADENA, Jan. 29.—A group of business men and property owners met Saturday evening at Hotel Raymond to organize for the purpose of securing the removal of the South Pasadena postoffice to a point near the junction of Mission street and Fair Oaks avenue. The lease on the old site on Mission street near Raymond street was just closed a successful year, and the business men have expressed the desire to have the postoffice removed to a more central location.

South Pasadena Are Not in Accord as to the Best Location for the Stamp Store.

SOUTH PASADENA, Jan. 29.—A group of business men and property owners met Saturday evening at Hotel Raymond to organize for the purpose of securing the removal of the South Pasadena postoffice to a point near the junction of Mission street and Fair Oaks avenue. The lease on the old site on Mission street near Raymond street was just closed a successful year, and the business men have expressed the desire to have the postoffice removed to a more central location.

The delay in steps to erect a tourist hotel here is causing the loss of many visitors who would pass several weeks or months here if accommodations could be obtained. Many local residents have received letters from acquaintances and friends who will come to Pomona if hotel accommodations can be provided.

The Hotel Ais project seems at a standstill and Dr. Funderberg's plans for a hotel on the old Palomares site, are not wholly formulated.

ROW ON OVER POSTOFFICE.

Tehachapi

Ten acres at \$250 per acre. This includes abundance of water delivered to the highest point of each and every 10-acre tract.

EASIEST kind of terms; within the reach of people of moderate means.

HUNDREDS of acres of land at Tehachapi have been acquired by fruit experts and planted out to apples and pears.

APPLE land that will produce hard winter apples of exceptional quality, and increase in value at over \$100 per acre per year.

ABBAGE, beans, potatoes and crops of all kinds grown between the rows at Tehachapi will net over \$75 per acre.

AVE you—Mr. Colonist. Mr. Investor, Mr. Back-to-the-Farm, ever investigated the culture of apples and pears as a profitable investment, where all the conditions, climate, soil and water, are most favorable?

TEHACHAPI—you are right on the main lines of two big railroad systems (125 miles from Los Angeles.) The land adjoins a fast-growing town, with good schools, churches, stores, bank, etc.

PEARS—Bartlett pears grown on proven land at Tehachapi so much better than most Bartlett pears that they will always fetch a premium price.

INVESTMENT—10-acre orchard already planted to apples or pears, at from \$400 to \$650 per acre, or 10 acres at \$250 per acre ready to plant on our terms, MEANS INDEPENDENCE AT SMALL COST.

Come in and talk it over with us.

COUNTY GRAND JURY INDICTS DYNAMITERS' CHIEF COUNSEL.

Clarence Darrow, Who Directed Defense of McNamara's Until Confession, Doubly Charged With Jury-Bribing-Corrupting-Heavy Bail.

TWO INDICTMENTS, each charging jury-bribing and corrupting, were returned yesterday by the county grand jury against Clarence Darrow, chief counsel for the McNamara's until the confession of the dynamiters. Darrow was evidently expecting this action, for he was ready with \$20,000 bail as soon as the indictments were prepared to report. He appeared before Judge Conrey in Department Ten a few minutes before 4 o'clock, was arrested in the courtroom, and allowed his freedom on bonds signed by Charles S. Young and Mrs. LeCompte Davis, wife of one of the associate counsel for the McNamara's. Darrow will be arraigned in the same court Thursday morning at 10 o'clock. He declines to discuss the important points of the case.

The two indictments follow almost exactly the language of the information brought against Bert H. Franklin, Darrow's confidential agent in the alleged bribery of one of the McNamara's and one permanent juror in the trial of J. E. McNamara, who later pleaded guilty to a charge of murdering twenty employees of The Times, when the newspaper plant was dynamited October 1, 1910.

One true bill sets forth that "On November 25, 1911, Clarence Darrow did willfully, unlawfully, corruptly and feloniously, give the sum of \$500 to George N. Lockwood, and did then and there promise to give said George N. Lockwood, the further sum of \$500 to vote for an acquittal in the case of the People vs. J. E. McNamara."

The indictment sets forth this alleged offense in two counts, but does not mention any details of the crime as charged. The second bill is similar to the first except Robert F. Bain is the juror who is alleged to have been bribed by Darrow. This is also in two counts.

The indictments are drawn under sections 92 and 95 of the California Penal Code. Under the first-named section, the crime is where any person gives, or offers to give a bribe to a juror with intent to influence his vote as a juror. Under this section, conviction will mean a maximum punishment of ten years in State prison. Under section 95, an improper attempt to influence jurors is made the essence of the offense. Under this section, the maximum punishment that can be given upon conviction is a \$5000 fine, five years in the penitentiary or both.

Between now and the trial will be motions and demurrers, arguments and pleas of counsel. With a crowded calendar, trial may not be reached before fall. If conviction is obtained, appeal will mean perhaps another year.

From the fact that Earl Rogers was retained last week and Cyrus McNutt, yesterday, it is evident that Darrow intends to make the best and perhaps last legal fight of his life. He is a skillful lawyer himself and will no doubt take a prominent part in the preparation of the defense.

Asst. Dist. Atty. Ford and Deputy Keetch will represent the county in all forthcoming proceedings. Rogers, McNutt and members of Rogers's office staff of attorneys will for the present look after the defense. Undoubtedly Darrow will secure more legal talent by the time the actual trial is begun. LeCompte Davis stated yesterday he would not appear in the case; it is possible he will change his mind inasmuch as McNutt, who was also associated in the McNamara defense, has been secured to help Darrow in his present entanglement.

Arraignment Thursday will not consume much time. Then will follow the pleading and later numerous legal arguments and devious motions by the defense.

DAVIS A WITNESS. One of the principal witnesses before the grand jury yesterday was LeCompte Davis.

"If there was any bribery in that case (the McNamara trial) I know nothing of it," said Davis. "I came as a witness before the grand jury without subpoena. I am perfectly willing to tell what I know, but it will be little or nothing." Davis was before the grand jury for nearly half an hour. When he came out he refused to discuss his testimony.

DARROW NOTIFIED. After many false alarms, the grand jury indicated shortly after 3:30 o'clock it was ready to report. Superior Judge Conrey, who is presiding in the absence of Judge Hutton, was asked to receive the indictments. Clarence Darrow, who had been in seclusion in the office of Attorney Rogers for the greater part of the day, was notified to appear in court.

Darrow appeared in the courtroom shortly before 4 o'clock. He was accompanied by Attorneys Rogers and McNutt. He appeared harrassed and downcast. He sat down just inside the bar and awaited the proceedings with nervous interest.

Foreman Hubbard of the grand jury informed the court that the official body was ready to present indictments. At first it was intended to read the indictments and then receive and warrants issued on each indictment.

ALL SEEM TO KNOW. Up to this time there had been no mention of the name of the person indicted, though everyone in the courtroom appeared to know. As soon as the warrants were made out they were served on Darrow and his attorneys. The next matter was the arrangement of bail.

"We feel that this is a serious offense, your Honor," said Asst. Dist. Atty. Ford. "And we would like the bail fixed at \$10,000 on each indictment."

Rogers smilingly remarked that there would be no difficulty about bonds. At first it was intended to have former Judge McNutt as one of the bondsmen, but inasmuch as he is to appear as one of the counsel, it was decided to substitute Mrs. Davis, wife of the attorney. She swore that the scene took place and

that Darrow placed his arms confidently on the shoulders of Franklin and Lockwood.

This circumstance, even if true, might not show any intent on Darrow's part to bribe anybody. But if Bert H. Franklin should break his silence he can tell exactly the surrounding circumstances.

FRANKLIN WEAKENS? Franklin is believed to be ready to confess. When asked about the matter yesterday, representatives of the prosecution denied it. But many criminal lawyers declare that the Assistant District Attorney would not have asked the grand jury to indict the leading laborite lawyer of the country unless the State were in the possession of the strongest direct evidence bearing the chain of circum-

stances.

According to the theory of the prosecution, Darrow was on the spot when Franklin said to have paid \$500 to Lockwood and to have turned \$2500 more over to Charles E. White, the stakeholder.

According to the theory of the defense, Darrow was not present when Franklin paid over the agreed amount of money. There are at least ten or more detectives and attaches of the District Attorney who will swear that the scene took place and

that Darrow placed his arms confidently on the shoulders of Franklin and Lockwood.

This circumstance, even if true, might not show any intent on Darrow's part to bribe anybody. But if Bert H. Franklin should break his silence he can tell exactly the surrounding circumstances.

Exceptional Handkerchief Values
Here are some handkerchiefs bought for the holiday trade, but arrived too late. Therefore we've marked them for quick clearance as our summer lines are already bought.
Madenia H'dk'fs 50c
Hand-embroidered corners and walloped edges. Better, a good deal, than ordinary 65c handkerchiefs. Specially priced, 50c.
Pure Linens 3 for 50c
Pure sheer linen 'kerchiefs, plain or barred. All-over designs, embroidered corners or embroidered borders. Splendid variety; 3 for 50c.
Main Floor—

A New Brinkerhoff Player at \$445
This Brinkerhoff Player is a good dependable instrument—A Player Piano which we can absolutely guarantee. It plays 88-note music, the full keyboard—and is shown in Walnut, Mahogany, Oak and Walnut cases. Come in and see and try it.
New Ideas and Styles in Cecilians
The makers of the famous Cecilian are now producing six different styles of Players. Prices begin at \$550, ranging to \$650, \$750, \$850 and \$950. These styles represent the wonderful Cecilian action as contained in the Cecilian, the Cecilian and the Cecilian. The Cecilian is unique in that it gives you such a wide selection—including the choice of both wood and metal action in the Player mechanism. These instruments are unusually easy of operation.
The Popular Kurtzmann Player
In addition to the other Players mentioned there is the popular Kurtzmann Player. You know that Kurtzmann Piano is the greatest name on the market today. The Kurtzmann is a Player with good new ideas in the many lines of the Kurtzmann—the Player that is in so many of our Los Angeles homes. The Kurtzmann is the standard of the world, and it is according to the strictest standards of the Cecilian. It is a Player that is perfect and very easy of operation.
Kranich & Bach
The beautiful Kranich & Bach Player, priced at \$100 and \$150, retains all the wonderful harp-like tone of this favorite piano. The Player action is produced by the Kranich & Bach Company, and particularly adapted to the "Kranich" of this Piano. This instrument is equally perfect as a hand played Piano or as a Player.
Steinway Pianola
We also have the Steinway Pianola, priced at \$1275. Comment upon the Steinway, the world's standard Piano—for which we are exclusive representatives for Southern California and Arizona—be unnecessary.

HIS END PATHETIC.
Former Los Angeles Writer Dies in New York Awaking Letters That Never Came—Information Wanted.
After having bequeathed to the International Sunshine Society several stories and play manuscripts, "In the hands of publishers," Clark Elliott, writer, formerly of Los Angeles, died in New York a few days ago. Information of his passing was conveyed to The Times by the head of the society, yesterday.
In the estimation of Mrs. Cynthia Westover Alden, president-general of the society, Elliott died of a broken heart. Practically penniless, he feverishly awaited the arrival of mails from California, which he hoped would contain remittances from men who were indebted to him, she states in her message. The last day he called for the mail that never arrived, being again disappointed, he said: "I believe I am forgotten by all my friends." He was found dying the next day in his meager apartments.
In addition to the bequest of the plays, "Kismet" and "Her Dual Self," and several stories sent to magazines, and not yet published, Elliott willed a mining lease known as Middle Ground, in Suisun Bay, to Charles E. Heath of Los Angeles and A. W. Schroeder of Seattle.
The only Charles E. Heath who can be traced here with the aid of the city directories is a photographer who, in 1908 and 1909, had a small studio at No. 217 1/2 South Spring street. He died in December, 1909, and cannot be located.
After Elliott was found very sick in New York, by the Sunshine Society, he was sent to the hospital maintained by that organization at Bensonhurst-by-the-Sea. He was suffering from pneumonia. He improved in condition and began writing to California for pecuniary aid and money he said was due him. He hoped daily that he would hear from the stories he had sent to various magazines, which included "The Confidential Agent," "Out With a Friend," and "Laura Lane." Mr. Alden is eager to get further information concerning Elliott and his California interests. The Times will be pleased to forward any facts that may be sent this office.

TRAFFIC EXPERT ARRIVES TO INSPECT PROGRESS.
Says Urging Necessary for Congestion Relief.
Satisfied With the Working Out of His Plans.
To see with his own eyes the matter in which his radical revision of the congested downtown traffic situation will work out, Bion J. Arnold, traffic expert, arrived in the city yesterday for a stay of several days. At the expiration of this time he believes that he will have formed an adequate idea of the manner in which his plans will take concrete shape and in the meantime he urges that not too rapid progress be expected in grappling with the situation.
"They have been trying to find some way right along to carry out those plans," said he. "What has been done I cannot say as yet, because I have not had time to look over the ground. But Los Angeles need not become discouraged because the plans suggested for the relief of congestion on the main streets are not immediately carried into effect. This providence and Pittsburgh are only now starting to follow up plans made for them long ago."
"Usually the plans go along with nothing done for a year or so, maybe more. Any good medicine, you know, requires time to take effect."
DEMAND ESSENTIAL.
Insistent public demand was the only way, the engineer said, to stimulate the authorities to action.
"The congestion of Main street could be relieved at once," he said, "if San Pedro street were utilized as recommended in my former report. It is necessary to reach some harmonious view on that point."
No other temporary measure, he thought, could be devised that would bring about the relief sought. Although he is here on a private mission, he admitted he intended to look closely into the street car situation.

"Los Angeles has one advantage over San Francisco," said Arnold. "The mapping of its downtown streets. I have been retained in San Francisco to study the street car situation and to arrange to carry the passengers into Harbor View Valley, where the exposition's main buildings are to be erected. There they have one main street, Market, into which all others debouch. Yet there they would have no trouble were they to use the four tracks on Market street, instead of two, as they do now. The outside tracks, I understand, are not used because of some legal obstacle. Now, of course, the traffic there is more or less congested."
The first problem we are considering in San Francisco is how to reach Harbor View Valley without resorting to expensive tunnels, which would be out of the question. I expect to report next week on that matter. In the meantime I told them that for all practical purposes, automobiles and boats would be the main methods of reaching the exposition grounds. The cities around the bay will naturally unload their visitors by water."

STAT TO BE BRIEF.
Arnold's stay here will be very brief, as he is to make his report on the San Francisco situation at once, offering preliminary suggestions immediately. He has offices here with his partner, George Damon, as well as his main office in La Salle street, Chicago.

"Some steps have really been taken toward taking the red car off Main street," he said in concluding yesterday, "and putting them on San Pedro street. I think the situation is being improved at the progress that is being made. I have not had time myself to look at the situation as I just arrived this morning, but I will have a pretty good idea of it in a few days."

SEES ONE MILLION NEAR.
Former National Realty President Here First Time in Twenty-three Years. Yields City the Palm.
Declaring that Los Angeles is the "wonder city of the world," W. W. Hannan of Detroit, former president of the National Association of Realty Exchanges and one of the prominent real estate men of the United States, yesterday expressed his amazement at the wonderful advance that has been made by this city since 1887, the time of his last visit. Hannan, who, with his wife is staying at the Alexandria, is the guest of an old school friend, Frederick E. Lee, general manager of the Round Oak Grove Works at Downslake. The party is making a tour of the entire State in the latter's automobile.

"When I was here twenty-three years ago," declared Hannan, "there was but little to indicate the great destiny in store for Los Angeles. In Detroit we thought we were world-beaters when we jumped from thirtieth place to ninth in the last national census, but even Detroit will have to yield the palm to your city. If you do not have 1,000,000 people here in 1920, I'll be mightily surprised. We hope in Detroit to reach 1,000,000 by 1925."

Speaking of the growth of the Los Angeles Realty Board, Hannan said: "The Los Angeles board is the largest that is affiliated with the national body, and so far as I know, the largest in the country. The enterprise of the realty men here is a subject of comment all over the country."

Hannan was president of the National Association of Real Estate Exchanges in 1891, being the second to hold that office.

ADDRESS TO WOMEN.
Mrs. Bertha Hirsch Baumgartner, honorary president of the National Council of Jewish Women, will address the council on a subject of interest to women at 2:30 o'clock Thursday afternoon in the vestry of Temple Beth El. Mrs. Frederick Stephenson will contribute a vocal solo and tea will be served.

KENTUCKY MEETING.
Former residents of Kentucky will meet in Mammoth Hall, No. 517 South Broadway, this evening, to organize a state society. All Kentuckians are invited.

CHARGES OF OVERCHARGES.
Orange Growers Complain to Board of Supervisors Regarding Work of Horticultural Commissioner.
Criticism of the work of County Horticultural Commissioner Meeserve were heard from orange growers of Los Angeles county by the Board of Supervisors yesterday. Several complaints of overcharges for work done by the county scale destroyer were made. The complaints were referred to the District Attorney.
The board granted a franchise to J. E. Chaffee, trustee of the California Domestic Water Company for the construction of three miles of water pipe to run along the county highway near Whittier. The company furnishes water to 500 ranchmen and orchardists in that district. The franchise sold for \$475 and is to be operative for forty years.
Stewart J. Flintham was appointed County Forester at a salary of \$150 a month.

THE EVIDENCE.
Clarence Darrow, Standing, and Rogers, His Lawyer, A few minutes after the indictment of the chief counsel for the dynamiters yesterday. Darrow is charged in two true bills with jury-bribing and corrupting.

LONG AND STRONG IS THE CHAIN OF CIRCUMSTANCES.
"WELL, boys, is everything fixed?" This is the remark attributed to Clarence Darrow as he stepped between Bert H. Franklin and George N. Lockwood at the intersection of Third and Los Angeles streets on the morning of November 25. It is alleged that evidence went before the grand jury during the past few weeks that showed Darrow was standing close by when Franklin said to have paid \$500 to Lockwood and to have turned \$2500 more over to Charles E. White, the stakeholder.

According to the theory of the prosecution, Darrow was on the spot when Franklin paid over the agreed amount of money. There are at least ten or more detectives and attaches of the District Attorney who will swear that the scene took place and

that Darrow placed his arms confidently on the shoulders of Franklin and Lockwood.

This circumstance, even if true, might not show any intent on Darrow's part to bribe anybody. But if Bert H. Franklin should break his silence he can tell exactly the surrounding circumstances.

FRANKLIN WEAKENS? Franklin is believed to be ready to confess. When asked about the matter yesterday, representatives of the prosecution denied it. But many criminal lawyers declare that the Assistant District Attorney would not have asked the grand jury to indict the leading laborite lawyer of the country unless the State were in the possession of the strongest direct evidence bearing the chain of circum-

stances.

The Oil Industry.

RICH OIL LAND IS IN DISPUTE.

Four Separate Suits for One
Quarter Section.

Big Interests Are Involved in
the Litigation.

Oil News of Interest from
Fields of State.

One of the most interesting oil land
disputes in the history of the State
is now under way. Twenty-seven
witnesses have been subpoenaed to
give their depositions beginning to-
day at the Los Angeles Hotel in Bakersfield
before J. W. McGrath, a notary public,
in the complicated litigation over the
southwest quarter of section 22, 12-
12-12.

Four different suits have been filed
in connection with the quarter-section,
which is one of the richest tracts of
oil land in the Maricopa field and in
all of them Mary E. Francis, widow
of George E. Francis, is the defendant.
Several of the individual plaintiffs ap-
pear in several of the suits which are
entitled as follows:

M. P. Wallis, et al against Mary E.
Francis. Commenced midway Oil
Company against Mary E. Francis,
Walter McGee, et al, against Mary
E. Francis, and Midland Oilfield
Company, Limited, against Mary E.
Francis. The last-named suit is
brought in the District Court of the
United States.

The defendant claims the land by
virtue of assignments of interests dat-
ing back to January 1, 1907. The as-
signments were made to George E.
Francis and Mrs. Francis jointly.
T. A. O'Donnell, E. L. Du-
bey, C. A. Canfield, Norman Bridge,
J. McCray and J. E. O'Donnell claim
to have located the land on October 4, 1910.
Wilbert Morgage, J. M. Danziger,
et al, claim the land under locations
made on June 24, 1910, and Julius
Tried, J. M. Dunn, Parker Barrett,
and their associates claim to have
made their location on the same land
on January 1, 1907.

The Elders Oil Company, Charles
A. Ben and other well-known oil men
who have claims of different sorts up-
on the land, and some of the many
claimants have a working agreement
for mutually protecting their inter-
ests and for dividing the proceeds if
they are successful in the suit. Mat-
thew R. Platz and E. L. Foster are
the attorneys for the defendant, Mary
E. Francis, and Welborn & Welborn
of Los Angeles and Whitaker & Harvey
of Bakersfield are representing the
Midland Oilfield Company, Wilbert
Morgage, et al, and other plaintiffs.

The witnesses, who are men who
have worked on wells drilled on the
property or are familiar with it from
other reasons and who, it is feared,
may leave the county before the trial
is held, are as follows:

D. L. Churchill, Perry Harrison, S.
A. Burrell, Burt Ibbotson, William
Gilmartin, W. R. Christal, William
Taylor, W. W. Alder, Noel Dantz, J.
F. Sheffer, H. C. Ringers, S. R.
Aikew, S. M. Smith, Oscar Wolverson,
E. J. Van Horn, Carl Levy, Fred
Rack, Frank Stanley, David Stacy,
Harry Ironside, Jack Cameron, John
T. Simmons, N. L. Hall, H. K. Wheat,
Robert Woodruff, C. T. Smith and Pat
Hosahan.

It may take the entire week to fin-
ish the taking of the depositions, as
each witness will be subject to cross-
examination on behalf of all the par-
ties to all the suits. The case has not
yet set for trial, and as the court
calendars are filled for a long time
ahead it is not likely that the testi-
mony to be taken this week will be
placed before the court until late in
the year.

Big Clean-up.

GOLDFIELD CON. FOR DECEMBER.

NET REALIZATION IS OVER HALF
MILLION DOLLARS.

Twenty Three Thousand Tons
Worth Almost Eight Hundred
Thousand Dollars Is Gross Output
for One Month—Detailed Report
of Mine Operations.

Special Correspondence of The Times.]

GOLDFIELD (Nev.) Jan. 23.—The
report of the Goldfield Consolidated
Mine Company for December shows
a total production of 23,127 tons,
containing 769,169.59, or an extrac-
tion of 33.41 per cent, the whole be-
ing milled with an average extrac-
tion of 33.41 per cent, or 34.01 per
cent. The total net realization of the
company was \$503,476.64, or
\$11.39 per ton. The development
work aggregated 4415 feet. The to-
tal cost of operation, including min-
ing, milling, development, office and
general expense, was \$7.24 per ton,
distributed as follows:

Development	\$2.24
Mineral	\$2.24
General	\$2.24
Office	\$2.24
Transportation	\$2.24
Other	\$2.24

Total cost of operation \$7.24
Net realization \$503,476.64
Net cost per ton \$7.24

Detailed reports of the work follow:
Development—The 415 ft. was ex-
tended and produced 1078 tons of
average 32.4 ore. The 495 crosscut
in the hanging wall of the 420 stopes
is being extended in ore of average
32.4 grade. The 494 ft. raise from
the 3000 foot level going up toward
the 554 on the south end of the 900
produced 150 tons of 34.1 ore.
Milling—The 2.3 mill on the 190
level near the old Shear, which was
was again considerably extended,
produced thirty-eight tons of
average 44.3 ore. The 291
mill on the second level
produced thirty-seven tons of
average 44.3 ore. The 406-X cross-
cut from 495 intermediate between
third and fourth levels produced
430 tons of average 32.15 ore. The
406-Y raise from the 495 inter-
mediate produced 108 tons of aver-
age 32.15 ore.
Top—The 353 intermediate, be-
tween the second and third levels,
of the shaft, produced 56 tons

of average 32.9 ore. The 395-DX
raise from 353 intermediate produced
217 tons of average 33.14 ore. The
352 sill, on the third level north of
the shaft, was extended and pro-
duced 228 tons of average 32.14
ore. The third level main crosscut
from the shaft is being driven across
to the Laguna shaft and a station
and pocket cut out at the Laguna.
Upon completion of this work the
Laguna shaft will serve both mines
and the Red Top surface shaft will
be dismantled.
Laguna—The 718 foot level of the
Hazel is being driven toward the
Laguna shaft, and will be connected
by a vertical upraise with the bot-
tom of the shaft. The shaft will
be carried down to the 725 level, and
all the work will then be done
through the one central shaft for this
section of the property.
Construction—The total construc-
tion expenditure for December was
\$42,000, as mentioned in the prelimi-
nary report. Inasmuch as this con-
struction extended over a period of
several months, we are not charging
off the total amount in December,
but will charge the same off at the
rate of \$15,000 to \$20,000 per
month until the total amount is
cleared up.
Mill—One of the furnaces in the
roasting plant has been completed and
will be in operation by February 1.
The other will be completed in a
few days.

CADDO OIL FIELD. HAS RAPID GROWTH.

In a recent bulletin issued by the
Geological Survey, space is devoted
to the development and growth of
the Caddo oil field of Louisiana, as
follows:

"The first shipments, made in De-
cember, 1906, amounted to 3158 bar-
rels. In 1907 the district expanded
considerably and the production was
44,908 barrels. The year 1908
showed still greater growth, both in
territory and production, notwith-
standing the handicap caused by
high water in May and June of that
year. The production of oil in 1908
was 499,937 barrels. In 1909 it was
1,028,818 barrels and in 1910 a yield
of 5,099,725 barrels was recorded,
valued at \$2,292,349. The number
of wells completed increased from
one in 1906 to twenty-three in 1907,
fifty-eight in 1908, 121 in 1909,
and 226 in 1910. In 1910 the oil-pro-
ducing wells numbered 124 and those
producing gas forty-eight. The
Geological Survey estimates the oil
production for 1911 to have been at
least 10,000,000 barrels.

"The Caddo field is now not only
a large producer of petroleum, but it
is the greatest gas-producing region
of the United States. Only a small
portion, however, of the gas has been
used. For several years the waste in
this field was enormous, but one
of the wells where the waste was
greatest has recently been closed.
The lack of a market for the gas is
given as a reason why the waste was
not checked sooner. It has been
proposed to pipe this gas to New Or-
leans and St. Louis."

COOK'S BROTH SPOILED.

In his off moments Jeweler Dow
practices cooking. Because of this
Deputy Constable Ens found consid-
erable trouble in locating him when
given a second warrant to serve him
for failure to provide a living for his
wife, Mary Dow of No. 448 Forty-
eighth street. Finally Dow was
located at the home of his wife, who
lives in the Germantown building. Ens
found his way through the bolts and
bars of the club and the members
want supper for Dow was taken
to jail. He is out on probation on a
similar charge. His wife says he is
doing nothing for her support, and
she is compelled to live with her
father.

HE WOULD ROB TO HELP FATHER.

YOUTH MAKES FULL CONFESSION
IN POLICE COURT.

Says His Mother Was Sick, His
Father Was Unable to Provide for
Family, and He Plotted Robbery
With Two Companions—Is Now
on Parole.

Because his father was unable to
provide for the wants of a sick
mother, owing to inability to get
work, Frank Burrows attempted to en-
gage in the hold-up business late
Saturday night. He made a full con-
fession to Police Judge Chambers in
open court yesterday afternoon.

Burrows will be arraigned in court
today for sentence. Judge Chambers
asked that Detectives Browning and
Ingram produce the older Burrows.
Young Burrows was arrested at
Eight and Beacon streets in com-
pany with Warren Arnold, an Iowa
boy, and Franklin Everett of this
city. The trio are former inmates
inmate. Arnold escaped last year.
Burrows and Everett are on parole.
Burrows lives at No. 562 South Dakota
street.
Detectives Browning and Ingram
said they followed the boys for sev-
eral blocks before making an arrest.

DOUBLE MISFORTUNE.

Misfortune befell Mark Hillard
twice in quick succession yesterday.
A horse kicked him in the eye, and
when he fell he broke his right arm.
He was treated at the Receiving Hos-
pital. Hillard is a railroad man, 40
years old, and lives at No. 912 North
Broadway. The horse struck Hillard
while he was examining the animal's
hoof. The man was thrown about ten
feet, striking the ground with his
right arm bent under him.

KNOWS HOW IT FEELS.

Richard Nixon, a chauffeur, who
lives at No. 118 South Olive street,
was painfully injured at Fifth and
Hill streets yesterday afternoon,
when he was knocked down by a motor-
cyclist. The machine was ridden by M.
House of No. 843 Birch street, a negro
delivery boy. Nixon sustained a cut
on the back of his head and a con-
tused right hip.

WHAT'S IN A NAME?

Difference Between Franz and
Frank, Same Man, Nearly Costs
Him Large Tract of Coast Land.

The difference between a German
name and its English equivalent, both
applying to the same man, so nearly
cost Franz or Frank Hoffman 150
acres of land on the Santa Monica
coast, that it was not until yesterday
that the local land officials definitely
awarded it to him.

It appears that the filing was done
in the name of Frank Hoffman, then
living at Mojave. When the land of-
ficials sent for Hoffman's naturaliza-
tion proofs there was a delay, occa-
sioned by a faulty address, and in
the meantime Charles Panetti filed
on the same land. When Hoffman's
papers finally arrived they were in
the name of Franz Hoffman, as he
was known before his naturalization.
Unable to identify the two as the
same man, the officers rejected the
application in favor of Panetti's.

The matter was taken up by Reg-
ister Bureau and Receiver Robinson
yesterday and the mistake estab-
lished. When it was shown that
Hoffman really had a prior claim to
the land, it was awarded to him and
Panetti's entry cancelled.

THE L. A. SUBMARINE BOAT CO.

Offers \$2000

To any one who can point out a defect that will interfere with the efficiency of this submarine as regards anything which we claim it shall be competent to do.

WE CLAIM that the "Peace Maker" will run faster than any Submarine ever built. The ease with which it can be controlled increases as the speed increases, because the propellers are on the forward end of the boat. The man operating the boat knows at all times how fast the boat is going, how deep it is and whether or not it is on a level keel, and he has perfect control over all these features. When the top of the periscope, or range finder, is above the surface of the water, the man operating the boat can gauge the distance away, the speed and the direction of travel of every object that is within sight, and he can see everything around the whole horizon at once. This Submarine has a wide field of operation before it for pleasure, treasure seeking, dredging and scientific research. The present types of boats are slow, especially when submerged, whereas this boat runs faster submerged than when on the surface, because we use the gas engines when the boat is running submerged instead of the dangerous storage batteries. It is very dangerous to attempt to run the present Submarines fast when submerged, and there isn't a boat today that can run submerged on a level keel. This boat, in order to stay at a given depth, whether running or not, will maintain a level keel. Our boat is better in every way than the present Submarines.

Every government that has a navy must have submarines. The governments have appropriated over \$200,000,000.00 to buy submarines. The company that gets this business can make a profit of \$300,000.00 per boat and the demand is over fifty boats per year. It is certainly worth your time to investigate our proposition.

NOTICE OF ADVANCE

Stock in this Company is now selling at \$3.00 per share, and will positively advance to \$4.00 per share on or before February 1st, 1912.

New Spring Coats and Suits

Almost every day notes
the arrival of more new
suits and coats. Our
models are character-
ized by the latest style
developments for
spring.

The distinctive fea-
tures of the new suits
are:

Shorter coats, with
the cut-away effect,
long revers, and one
fastening. The most
fashionable fabrics are:
whipcord, diagonal and
homespun, in very light
tones, especially of
gray and tan.

Correct lines and
thorough tailoring are
strong points of our
new

Spring Suits \$18.50

DYING PEARLS.

It is said that the famous Louvre pearls, the richest in the world, are dying because they are never worn. It is quite likely that many pearls of character are perishing for the same reason.

INEVITABLE.

The Kaiser of Germany has been advised on his birthday by the newspapers to respect the voice of the people. This reminds us that when Emerson wrote to Carlyle that Margaret Fuller said she accepted the universe Carlyle replied: "Gad, she'd better!"

ALL EXPERTS.

It is announced that the Federal government will send a thorough investigation of California soils. While all expert advice will be cheerfully received, it must not be forgotten that this work is now being carried on by about a million farmers with excellent results.

LOS ANGELES STYLE.

The proposed industrial city at Dominguez needs a river to the sea. No river is there so the men back of the enterprise will build one. That is the Los Angeles spirit and method. It illustrates the courage and capacity of those who are making this one of the first cities of the world.

DISCRETION.

Col. Watterston suggests a court of gentlemen to pass upon the controversy between himself and Wilson and between himself and Tillman. Such a court might be well enough with regard to Wilson, but unless he is sporting for a fight he should go a little slower about the sort of challenge he passes to one-eyed Fitzhugh Ben.

AN EYE-OPENER.

Tourists from the East must have looked with astonishment upon the unique manner in which Venice advertised itself Sunday when its boosters gave away violets by the thousands of bunches from one of its piers. This is so distinctly a California idea that it might be repeated with effect by many cities.

A QUESTION OF FACT.

A San Bernardino people were shocked by the efforts of a woman to shoot her husband when she saw him walking with another woman. We do not blame them. There probably is no question that many husbands should be shot, but we maintain that common decency demands that the shooting take place in the privacy of home and not on the public streets.

THE RIGHT MAN.

"Little, but oh my!" is the way a prominent official of Mexico recently described Gen. Gordillo Escudero, Governor of Lower California. The description is apt. Gen. Escudero is a soldier, statesman and business man of exceptional courage and ability. Nothing will inspire greater confidence in President Madero and his administration than the retention of Gen. Escudero at his important post.

JAPANESE ON THE JOB.

California Chinese hope that the United States will be the first to recognize the republic of China because they think such action would increase our trade over there. America is some distance from China and its people cannot manufacture cheap goods. This country wants China's friendship and its trade, but the chances are that the Japanese will further earn the title of the Yankees of the East by being first to take advantage of the Chinese situation as it develops.

AN UNFAMILIAR SUBJECT.

It is always a pleasure to see a big man add to his growth. At the same time it is something of a leap into the dark when a bachelor hazards an opinion about a woman and especially about a wife. Gilbert Chesterton makes such a leap when, by way of justifying the changeability of English weather, he compares it to the variability of a woman. This variability, he contends, is one of the virtues in woman which obviates the crude necessity of polygamy, "because," he ventures, "if a man has one good wife he is sure of a spiritual harvest."

POLITE UNLEARNING.

It is suggested by an agreeable essayist that persons traveling abroad should be polite enough to forget the facts about their home country while in another land. It is not always necessary to remember the exact floor space of an American department store while visiting a toy shop in Holland or to repeat to one's self the distance between New York and Seattle while walking through a country in England. By the same token we imagine Mr. Bryan might do his party a great service in the coming convention by forgetting a moiety of his own past importance. And there are others!

IN THE GRADING CAMP.

It is said that many men who have reasons for dropping out of sight do so to the squeaked to lose themselves in one of the grading camps. It is probable that such men compose a small minority of this army of workers. The graders are a class to themselves. They have a homely yet important part to play in the building of the West. They lay the foundations of railroads and cities, but have no homes of their own. Their tents are from camp to camp, the humble advance guard of an increasing civilization, working for a modest wage and laying the corner-stone of fortunes to be reaped by those who come after them. We salute with keen appreciation the right-of-way man.

DARROW AND OTHERS.

The indictment of Attorney Clarence Darrow, chief counsel (associated with Job Harriman, Joe Scott et al.) of the confessed dynamiters, for alleged complicity in the attempt to bribe two possible jurors in the McNamara case, heads the most sensational chapter in this wonderful history to come out since the confession. It would be improper to make much comment on these bills returned by the Los Angeles grand jury at this time, except to say that they give evidence that the scope of the prosecution for an epoch-making series of crimes is broadening in a way to cause grave apprehensions, not to say tremors, in the inner councils of violent labor-unions. At the same hour comes a dispatch from Indianapolis stating that a large number of indictments—scores of them—will be returned there against the criminals engaged in the dynamiting crusade. There is no linking as to whom the indictments will affect; but it is a fair surmise that the chief instigators and directors of the campaign of bomb-throwing, destruction and assassination will not be neglected. Who was the leader in organizing and promoting this dastardly and widespread plot? Who started things? Who issued the commands? Whose orders were implicitly obeyed? It would not seem difficult to trace the stream of anarchy and crime to its fountain head, and the Times is inclined to believe that the one man chiefly responsible for all these doings will be indicted, arrested and brought to the bar of justice ere these prolific investigations have been concluded. It is not at all unlikely that news so startling that the indictment of Attorney Darrow may be flashed upon the country in the immediate future. The unscrupulous scoundrels are on the run. They are giving up what they know, and the confessing habit will ramify till it brings out the whole truth. Justice is going to win one of the most sweeping and most wholesome victories of which the world's chronicles have ever written.

FALLACIES OF SOCIALISM.

A favorite writer on socialism, John Spargo, in his work on "The Common Sense of Socialism," begins his chapter on "the two classes in the nation" with a misleading statement.

He says: "In this and every other civilized country there are two classes. There are, as it were, two nations in every nation, two cities in every city. There is a class that lives in luxury and a class that lives in poverty. A class constantly engaged in producing wealth, but owning little or none of the wealth produced, and a class that enjoys most of the wealth without the trouble and pain of producing it. There are two great classes, the sheeners and the shorn—all the workers are shorn and robbed."

It is upon this kind of rot, circulated in pamphlets and newspaper organs and poured from the mouths of shallow-brained street orators, that many of the workers of the land are fed. Yet those men who are possessed of ordinary intelligence know that there is no truth in the statements and no reason in the deductions of John Spargo.

The "two classes" to which he refers—the very rich and the very poor—constitute but a slight percentage of the population of this country, and they live mostly in the large cities. The third class, almost whose existence Mr. Spargo is silent, are not rich, but they do not "live in poverty" and they are neither "shorn nor robbed."

They are comfortably housed and clothed and suffer the pangs of hunger. They eat meat twice and sometimes three times a day. They do not lack for bread and fruit and vegetables. They drink tea and coffee. They read books and newspapers. If they live in cities they ride to and from the scene of their labor on trolley cars. Their children are educated. The husband has a broadcloth coat and the wife a silk gown for occasions. They attend the church, the secret society and the caucus. The neighborhood, the orphan and the circus do not lack their patronage. The working people of our land are not members of the class of which Spargo writes as a class that "lives in poverty."

Whatever reasons for socialism and the organizations of co-operation "commonwealths" may exist in the overcrowded countries of Europe, they do not exist here where there is work for everyone who is willing to work and where even the lowest paid worker receives enough to secure him the necessities, the comforts and even the modest luxuries of life.

Socialism may be of advantage in lands where no effort of individualism can unbar the gates that are placed across the roads that lead to the heights. But here every road is open. There is no bar of birth or creed or caste across the path of the lowliest. Our greatest capitalists emerged from the cooperative poverty and were the architects of their own fortunes. Many of our Presidents and statesmen were poor boys and, although the paths to affluence and influence and power may have been reserved, they are still open to all.

The writer who says that there are only two classes, "the sheeners and the shorn," and that "all the workers are shorn and robbed" is consciously or unconsciously—slighting the truth on the altar of a faulty epigram.

Take the case of the unskilled laborer who is earning only \$2 per day—which is about the smallest wage paid to any hand worker in town or country. What would socialism do for him? Is it pretended that the co-operative commonwealth would give him for his labor any more of the necessities and comforts of life than he now obtains?

If he is a skilled laborer who can earn \$4 or \$5 per day, socialism would not give him as much as does the individualism he is accustomed to. For individualism gives him a chance to save a portion of his earnings and become in time an employer and a capitalist, while socialism sentences him to imprisonment for life in a co-operative commonwealth.

It is true that people shivered and suffered and even died from cold in New York this winter. But the cold weather was sent by God Almighty, and the gift of J. P. Morgan's partner—E. S. Stotesbury—to his bride of \$4,000,000 in securities in no way contributed to lower the temperature.

It is true that some of the 20,000 Lawrence strikers and the 100,000 Lancashire strikers who have quit work because their employers would not discharge non-union workmen may suffer from hunger before they abandon their folly and return to work. But the gift to Mrs. Stotesbury did not aggravate the self-imposed sufferings of the strikers.

Indeed the \$4,000,000 paid by Stotesbury

Let Us Hope So.

for the securities doubtless went into the channels of trade and industry. It was probably paid to manufacturers and farmers, who paid it to their workmen. Possibly some of the Stotesbury money found its way, in the shape of wages, into the pockets of the Lawrence strikers and enabled them to live for a few weeks while on strike, besides contributing toward the salary of Gompers, the \$50,000 fee of Darrow, the lesser honorariums of Twitmore and Harriman and Scott and the compensation of the murderous blackguard who is engineering the Lawrence strike.

HATS AND MUSTACHES.

Be prepared for something even more startling than usual in woman's headwear during the coming season. Just fancy a twenty-inch cone of millinery, without a vestige of a brim, perched above the plastered-down locks of proud Lucretia or pretty dark-eyed Ethel or little curly-headed Kate! Chicago has said the word and this is to be the style for next spring. Not unlike the dome's cap of old-fashioned school days or the curious silken pyram in vogue among fair dames in the days of the armored knight and the tilting tourney. We haven't the temerity to mention the witch on the broomstick, but we see possibilities.

Age is never allowed to wither or custom to stifle the infinite variety in the fashion of women's hats. Indeed, poor man has hardly become reconciled to the vegetable garden, moving-picture style or the inverted waste-paper basket before he has to unsettle again all the notions so carefully instilled by wife or sister or sweetheart as to what constitutes high art in millinery and get ready to digest more novel and astounding revelations.

We do not deny the advantages in the new brimless, conical, twenty-inch skyrapiers promised us in the spring. There will be more elbow room for the "strapper" on the Pasadena short line and the Long Beach cars. There will be no more dodging the deadly hatpin. But the change will be a little unnerving at first. An Angeleno, meeting his wife at the depot after a month's visit with her family in the East, her head wedged into one of the new fashionable Chicago cones, might fail to recognize her and a domestic tragedy might follow. Humanity takes big chances in this constant change of fashion in the feminine hat.

But if men are more conservative in the matter of headwear, if the plug hat, the "derby," the fedora and the summer straw appear year after year in almost unaltered recurrence, the masculine gender has other ways of fearfully and wonderfully changing its personal appearance. Variety in fashions, dear to the heart of the sterner sex, touches more closely than the removable bonnet of the woman. One year clean-shaven pink and blue visages are all the go. Anon, the close-cropped mustache and the pointed imperial is the sterling mark of respectability. The little mutton chop (all rest blank) enjoyed a brief notoriety with New Yorkers. It is even possible the long "Dundreary" may once again return in all its ancient glory.

The sudden changes in the male face, resulting from the use of razor and scissors, are almost as confounding as the feminine plunges from the picture-show headpiece to the Chicago cone. Last summer a business man in Los Angeles who had long affected the full mustache and Vandynke beard, during the absence of his wife and family in summer quarters at Santa Monica, decided to have a clean shave. When the barber had performed the operation for him he proceeded to visit his absent family at the beach. That same afternoon a kind-hearted stranger came across a little desolate girl weeping beside the sad sea waves. Taking her by the hand he tenderly asked the little one what was her trouble. "Oh, sir," she sobbed. "There's a strange man with a pale lip sitting in the parlor with my mummy and I'm afraid to go home."

Perhaps a man should give his family at least a month's notice before he starts to try tenebrous experiments. A state law would regulate this. And there are enough women voters to invoke the referendum, if necessary, to ensure such a law. For we notice that since woman suffrage became all the rage the men have started to trespass on the feminine domain by affecting jaunty effects in plush and velvet fedoras. The only way the women can get even is by a legal regulation of masculine beards and mustaches.

THE BEGGAR WOMAN.

BY T. HOWARD WILSON.

Like sheeted straw o'er her shrunken bones
Had nature stretched the pallid skin of age;
A dead leaf blown about the world by sigh;
That autumn winds will own when beauty fades.
And all the lust of living leaves the garden rose—
A thing like this was she, a woman old,
And bent, and brown, and shriveled like a
Beside the curb she sat and begged for alms,
Forlorn though hedged by thousands at their toll.
Forlorn as night when plying stars are hid,
Forlorn as seas ere life broke o'er the world,
Forlorn and broken on the wheel of time,
A wrinkled writh of shattered womanhood,
She sat and mumbled out her weary moans.

Youth laughed and passed and turned and turned
More to its head
Unmindful of the shriveled woman's cries;
Age passed and muttered, under breath, a prayer,
Stop! once, shoo! head, then mumbled to-
tered on;
Then came a man robust, his eyes a gleam,
Looked on the paled thing and shook with fear.
And all day long a shadow followed him
And in his dreams he heard dim cries for alms;
Next came a little child with blithesome heart
And placed a blossom in one bonny hand
And in the other placed a silver coin,
And they who passed heard sounds of mumbled prayers,
But he, the child, heard wondrous tones of
And saw the old crone's ragged raiment shine.
That night, in dreams, he saw her face again,
But paled of age, as beautiful as light:
A childish dream it was, yet still he thought
The beggar's face was Mary Mother's own.

CONTEMPORARY COMMENT.

Pedestrians' Rights.
[New York Tribune:] That right which the Court of Appeals decision assures to pedestrians crossing streets is a right no one will care to stand upon when an automobile is approaching with the speed of a locomotive and with its horn shrieking wildly. In effect the court says that the vehicle has no right to run over you if you don't cast dignity aside and flee from its path. Even so the lawyer assured his client behind the bars that the authorities had no right to put him in prison. "But I am in prison," said the unhappy client, who found little satisfaction in possessing so empty a right. Legally the rights of the pedestrian crossing a highway are doubtless just the same that they were when the only vehicle he might encounter was horse-drawn, but practically, since so many automobile drivers are indifferent to the rights of pedestrians, he is an intruder on territory which was made for the use and pleasure of a superior race. When they took to him he must run like a frightened fowl. "If the defendant's driver," says Judge Werner's opinion sustaining the mare foot passenger's legal rights unimpeded, "if the defendant's driver had taken the wise precaution to slacken his speed at this crossing or even to slightly change his course." A rather large "if," when it is so much easier to squeal than to wait the horn and trust to the improved capacity for flight which the automobile has developed in its non-users.

Equal Suffrage in Sweden.
[Pittsburgh Chronicle-Telegraph:] A tremendous impetus is bound to be given to the woman suffrage movement the world over by the speech of the King of Sweden at the opening of the Riksdag, wherein legislation enfranchising women is advocated. King Gustava, it is explained, entertains the belief that, in the best interests of the state, women should be placed upon an equality with men and at his instance, therefore, a bill granting equal suffrage and making women eligible to public office will be introduced and supported by the ministry. That Swedish opinion should force such a departure is not surprising, for the tendency to recognize the claims of womanhood to a more independent position has long been more marked in Sweden than in any other country. Thirty years ago when Madame Kovalevsky, the Russian mathematician, whose prize thesis at the Sorbonne was the wonder of the day, knocked in vain at the doors of other European universities, the University of Stockholm took her in and gave her a professorship, the duties of which she discharged with the highest distinction. Since then, the woman professor has ceased to be an anomaly. The Sorbonne itself has cast the old traditions aside and so far yielded to the new tendency as to give Madame Curie a place in its faculty. Meanwhile, however, the cause of woman's rights has kept on advancing more rapidly in Sweden than elsewhere and hence the present development simply realizes expectation.

Seeking the Impossible.
[New York Herald:] In strong contrast to the remarks of Louis D. Brandeis is Herbert H. Gary's defense of the Steel Corporation which the Boston lawyer—now more busy practicing law on the platform and in the press than in courtroom or law office—attacked.
"We believe," says Mr. Gary, "that if everyone keeps cool and postpones judgment until full development of all the facts is made there will be found no good ground for charging that the creation or management of the corporation has been inimical to the public welfare."
Mr. Gary asks too much. The great, preponderant majority will, as he suggests, keep cool. But when he says everyone—and that includes Mr. Brandeis—he asks the impossible. Mr. Brandeis would be warm in Medicine Hat, White River Junction, yes, even at the North Pole.

CHILDREN FORCED TO SMOKE.
[London Chronicle:] Children were compelled to smoke at the time of the Great Plague. But nearly forty years before, their pedagogues were themselves forbidden to indulge in the use of the weed. In the rules of the school at Chigwell, founded in 1529, it was declared that "the master must be a man of sound religion, neither Papist nor Puritan, of a grave behavior, and sober and honest conversation, no tippler or haunter of alehouses, and no puffer of tobacco." To-day smoking is a crime at Eton, while cigarettes are permitted to the boy in the street.

A TALE OF TWO TOWNS.
[Kansas City Star:] Among the stories that were going the rounds last week was this one: A man from Fayette and one from Glasgow met in Columbia.
"So you're from Glasgow," said the Fayette man. "Nice old town, but not laid out so beautifully as Fayette."
"Probably not," said the man from Glasgow, "but when our town becomes as dead as Fayette we shall lay her out beautifully, never fear."

Pen Points: By the Staff.

Our idea of nothing special to do is planning an airship journey.

Astronomers announce that the canals on Mars are doubling. So much for the water wagon.

Now the butter trust is to be probed, but the most of it is strong enough to take care of itself.

Violent earthquake reported at Zante, Greece. That is the place where the currents come from.

Up in Northern California they are talking of raising red, white and blue chickens. But the egg-nog season is on.

That distinguished collector, J. Pierpont Morgan, is in Egypt, probably arranging for the purchase of the Assuan dam.

When Arlison sends Mark Smith to the Senate there will be five of the name in that body—a sort of Smithsonian institution.

At this distance it looks as if perpetual motion and international peace would be invented by the same man at the same time.

Speaking of sticks, Taft says he will stick. La Follette declares that he will stick, but there is no chance for Col. Roosevelt on his stick.

Col. Bryan has pronounced against a third term. Coming from a man who, so far, has been unable to secure a first one, this is important.

At the present time, if the matter was put to a vote, everybody, including the ranchers, would vote the wet ticket in Southern California.

Remember the old-fashioned mother who insisted upon sister wearing two pairs of woolen stockings to school cold mornings away back East?

Lina Cavafieri has a number of engagements in this country this spring, but we understand that Bob Chanler will avoid mingling among those present.

That Land Show chorus of two hundred voices is practicing for the big event. We wonder if the leader will use the old-fashioned tuning fork to catch the air?

To John Frank Treat, Imperial Potomac of the Mystic Shrine, greeting: Los Angeles will have on her best bib and tucker, May. Come and bring your knitting.

The Chinese rebels have set another fire for the surrender of the government. The change the date almost as often as the Millerites predicting the end of the world.

The complete records of the life of the Sultan of Turkey will be published, but there is a law against the circulation of that sort of literature in the United States.

Miss Geneva Graham is making the run for City Clerk of Whittier. She is said to be quite competent, but the question before the house is: Can she hit a clicken with a stone?

Trilby rails are to be laid on East Seventh street. This may be accomplished in some California, but it would be entirely chilly to pose in the "altogether" in frozen East.

If we understand the matter right, the "sun-worshippers" of Chicago took their baths arrayed in nothing but their complexion. California is the only place for the this time of year.

"Bitty" Delaney, the man who tried Jim Jeffries for the Reno Marathon, is dead. Delaney played the fistic game better than anybody; he never waged a cent a night. He was on the inside.

Woodrow Wilson thinks publicity ought to be given to the financial contributions to a campaign, but he cannot for the "his" him understood why any attention should be paid to the literary contributions.

A young man, the third removed from the claimant to the Bourbon crown of France, has just died in this city. But the flag of the republic flies in France and his belief was about as valuable as a last year's fashions.

Alexander Moore of the Pittsburgh Courier is a brave man. He nailed the name of Col. Roosevelt to the masthead of his paper and announced his engagement to William Russell, all in one week. Bring on your Carnegie hero medals.

This is the time of year when the baseball players are laid aside, though they are not laid long enough to sign contracts for next season and registering a kick on the first-class hotels they are compelled to stop at when on tour.

The proposition to take the tariff on beet sugar will ruin the beet sugar growers of Southern California. This is a fact in the hat of the enemies of President Taft. The Democratic House and a hermaphrodite state.

Los Angeles book-lovers ought to commemorate the Thackeray centenary next week and summon Maj. Pendennis, Foker, Fat Joe Sedley, Sir Pitt Crawley, Capt. Costigan to the event. Banned from "Pendennis," "The Newcomes" and "Vanity Fair" would add to the variety of the function.

DISCONTENT.

Let me do something perfect before I die. Some least of things, so it be whole, free from any faltering touch; that some may see.

One faintest flaw; that not one breath.

May dim the grace my sure hand feel; I know there is not any strength in me. To work this deed; oh, may Thy power be fulfilled in weakness, as Thy scripture says.

My soul is sick of half-accomplishment. Of deeds that are no deeds, of victories unaccompanied by triumph; stranger to me. Until Thou work in me some excellence. That my heart may have rest ere I lie down. Blind voyager across the bitter sea.

—[Edmund Spenser, in February 1591.]

BANKERS LIKE IDEA.

(Continued from First Page.)

equipped physically, as well as mentally, and it is to be regretted that many of our boys have been compelled to give up a chosen work on account of lack of physical strength.

"I regret," said J. H. Rambow, cashier of the Merchants National, "that there was not an opportunity afforded for physical development in my school days. Athletic work can be overdone, but under the Times system I predict an immense amount of benefit to the little fellows, and a great amount of clean pleasure."

H. F. Stewart, president of the Southern Trust, has no difficulty in making himself clear on the subject. "I like the Times plan and it will not only do a lot of good among the coming American citizens, but proves the benevolent intentions of this great paper. It is a well known fact that athletic work is of great value in the education of the boy. Have the boys train and run. Then, take the little fellows to the summer camp and take good care of them while there. The Times plan is excellent."

"I would rather have my boy learn to fish, shoot, run and jump, than to lead his class and be ignorant of the pleasures of the hunt, fishing and athletic games," said J. E. Finburn, president of the National Bank of California. "I favor the Times plan and realize its value to the future business man. If there is anything I can do to assist in this good work, you may call upon me."

George E. Reed, cashier of the Home Savings Bank, said: "I have been through the mill. I have sold papers and I know the boy from start to finish, and while this good work takes up by the Times will do a lot of good, it will prove a great pleasure to the little fellows of this city."

"The value of clean sport, the benefits to be derived from athletic contests are questioned by none who have given the matter a thought. I heartily approve of the Times plan, will give it all the support at my command, and sincerely regret that no such philanthropic press existed in my boyhood days."

V. H. Rossetti, the cashier of the Farmers and Merchants, who lately took up the duties of that institution after years of service in San Francisco, made the following remarks to the Times: "I am in favor of the project. A boy deserves all the pleasure that can be arranged for him. Soon enough he has to get out into the world and go into the business game, where he needs all the physical, mental and moral strength he can muster. I am in favor of combining the three factors in a boy's education, and when that is done a good man is the result. If the paper will do this for our boys I am glad to know that such a paper exists. I heartily approve of the Times plan as a benevolent undertaking."

James Walter Kaye, cashier of the Park Bank, who is a well known athletic enthusiast, had the following to say on the subject: "The plan is good. I like the idea of giving the boy a systematic physical training. Track work is attractive as any branch I know of and there is no reason why a boy should not indulge in this form of athletics. Of course there is a chance of a boy overdoing in this as in anything else, but under the direction of trained men such as The Times has chosen, this feature will not appear."

SAN FERNANDO HIGH PLANS BIG FIELD MEET.

THE athletic management of the San Fernando High School is framing up what bids to be one of the largest suburban field meets of the season, among the High Schools under the 1911 enrollment mark. The meet will take place on the San Fernando High School oval February 17. No High School, outside of a few of the large institutions in the South, have a better field than this one. There is a perfect quarter-mile track with a good straightaway and the best possible arrangement for the field events, and with a good seating capacity, the field is an ideal one. Last season the meet took place on February 22 and, despite the big A.U. meet on Bovard field, there were ten High Schools in the running and a field of 150 entries. This season the date has been placed so as not to conflict with the meet on Bovard Field, and the management feels confident that the entry list will be 50 per cent larger than was the case last year. Last season the competition was of the best and some of the marks set up were among the top of the amateur record sheet. Jim Donahue will referee this meet and Forrest MacCallister will be the head clerk of the course. These two

MILITIA TO HUSTLE IN "TIMES" MARATHON RACE.

BY OWEN R. BIRD.

ANOTHER feature was added to The Times Modified Marathon yesterday when it was announced at the headquarters of the Seventh Regiment that a squad of twelve men would enter the race in heavy marching equipment and try for the world's record over the course.

The soldiers will carry all the guns, blankets and other things that are used on a regular forced march. In a trial of this kind either of the twelve men must finish the race in the time limit of two hours, or the competition does not count. If one of the squad should peter out during the race the rest of the men have to carry him over the finish line.

This will make a great feature in the race and when we see Uncle Sam's boys go through this contest for the world's record it will stir the hearts of all who are interested in the well-being of the militia.

Resides the marching squad there will be two runners from the armory who will go in for the regular prizes. They are Herb Simons and Jerry Abbott from Company A. Both are there as long distance runners and will be backed to a man by their mates at the big hall.

Before the squad of marching men will be announced the regiment will hold several try-out meets and the best men will be selected after the showings made. The regiment is all worked up over the affair and will go into hard training at once. They have a chance to make a world's record here, and don't want to lose the chance to gain a little of the fame thing.

The Times Modified Marathon has been taking on new features every day and it will be one of the greatest sporting events ever held on the Coast. There will be the regular runners coursing through the city streets for the prize; then there will be a company of gray-headed old men striving for athletic fame, and also to show the younger generation that a clean life is the only thing that will give the soldiers out for a world's marching record.

The runners will be taken care of by Roger Cornell, the expert trainer of the Los Angeles Athletic Club, who, despite the fact that another morning newspaper said that he would have nothing to do with this race, has stated that he will be on hand when the race is called and take the best of care of every man in the race. He also was rumored, will be engaged to man-ages the club.

in 16-button lengths—buyable here today
at \$2.75. All sizes.
Two-clasp white kid gloves with two-
row embroidered backs—the \$1.50 quality
—at \$1.25 a pair. All sizes.
No phone orders.
None sent C. O. D. or on approval.
(Just Inside Main Entrance)

25% Off All Furs—the "Revillon Furs" Make Included. (Second Floor)

Chambellain (who played in the first
performances of this opera given by
the present company), did much to-
ward making it a meritorious affair.
His voice, her acting and appearance
are eminently well fitted for the role
of Gilda.

Expo-Carra was a convincing Rig-
oleto, while Pasquale-Wronski, Colletti
and Mile. de Jourdel did splendid
work in the other important parts.
Tonight "Lakme" will be given
again. This opera, already given sev-
eral times, is among the best in the
company's repertoire.

This afternoon, a special benefit
concert will be given for M. Etienne
Bardou, the Grand chef d'orchestre, in
recognition of a domestic happening
which fall upon the Bardou family
a few days ago, namely, the birth of
a female child. The principal sing-
ers of the troupe will participate in
this concert, as well as some local
musicians. The programme is un-
usually attractive. From a standpoint
of talent display, there will be no
other such array of stars this week as
will be heard at M. Bardou's musicale.

Panage.

Without wishing to hurt the feel-
ings of our friend, Alexander
Panage, I am fair to remark that
I have seen better vaudeville than he
present week's show at his Broadway
emporium; in fact, no longer ago than
last week at the same place and price.

Clearance of Tailored Suits at \$14.50 continues

—Winter styles, 'tis true—but of seasonable materials in present-popular colors—col-
ors that will be quite desirable for Spring—
—Suits that were \$27.50, at \$14.50!
—Suits that were \$30.00, at \$14.50!
—Suits that were \$32.50, at \$14.50!
—Suits that were \$35.00, at \$14.50!

Los Angeles' Oldest Dry Goods House

Soft, Elegant Crepe Meteors, ---"a Silk Sublime"--- Were \$3.50 at \$3!

Long White Gloves for Commencement
—long white kid gloves,
at special under- pricings
should have a timely appeal to
parents of misses preparing for
commencement and its attend-
ant social affairs.
—These gloves are of the "PER-
RINE" make — in 16-button
lengths, glass-finished. Priced
specially at \$2.75 pair.
—also—
"PERRINE'S LA Mure"—a 2-
clasp white kid glove—(special
today) at \$1.50 pair.
—and "PERRINE'S Xtra-Qual-
ity"—3-clasp style—Special at \$2
pair.
—Upper Right Aisle, Main Floor—

crepe meteors—
—the very mention of the
fabric's name brings to mind
visions of soft, clinging costumes—
—for crepe meteor of all tissues
for tunic-effects is most enhanc-
ing!
—so this reduction should prove of
intense interest to silk-buyers—
today:
At \$5—CREPE METEORS,—in
white, black and all the season's
colorings. Never sold at less than
\$2.50—but priced today—\$3 yd!
45 inches.

and only \$10 down you can make or save \$50.00.
Because February 1 the price will be advanced \$5 a share, then again \$5 a share March
1, and \$10 a share a little later. Also, if desired, you can obtain a guarantee of
7% PAYABLE IN GOLD
CONSOLIDATED REALTY COMPANY is a live and thoroughly established inside business
property-holding company and its assets are steadily increasing in value as the retail business
center of Los Angeles expands. Its shares are today worth very much more than the asking
price of \$14 and a year hence they will surely be worth more with continued growth of this
city. Consolidated Realty Building is already a substantial earner. Business is increasing upon
the corner of Hill and Ninth streets, fast making a demand for another highly profitable im-
provement. When made the income will justify a further increase in the surplus available
for future handsome dividends, absolute safety always underlying your investment. It is your
money with ours that will help accomplish these results.

You are cordially invited to investigate and to invest NOW, so as to SAVE the full amount of

PLATE #8
CROWNS #4
WHALEBONE DENTISTS
437 SOUTH BROADWAY

This week's goods are good goods, but
they are just a trifle too much bar-
gain-counterfeit—we have turned
them over before and know their cut,
fit and style too intimately.
The Martells are dashing and dar-
ling wheelmen—and women. They
have an interesting routine of cycling
symonastics. Their paraphernalia is
new and shiny. Their costumes are
handsome. Their finale is spectacular.
Also Les Arthos. These hand-to-
hand balancers and heavy weight sug-
gers come near to eclipsing every-
thing else on the bill in the matter
of real class. Beware the first pro-
gram on the "drama" side this
week unless you want a two-hundred-
pound gymnast bursting through the
air and alighting in your lap. To un-
derstand the meaning of this warning
you must see the sensational finish of
Les Arthos's number.
Davis and Cooper are a couple of
good-looking youngsters who wear
more kinds of clothes than most sing-
ing and dancing teams. The feminine

and of the team is particularly effec-
tive as a fashion demonstrator. Both
sing pleasantly but not too much.
A different Davis appears in the
comedy playlet, "The Unexpected," a
story of a birthday that began like a
"morning after" and ended like a
birthday should, with everybody hap-
py. It is a raucous tale, with a
magic bracelet to make the betting

end of it a sure thing and therefore a
sneaky kind of gambling. Edmund
Day wrote it. Hal Davis and Anna
Rogers play it.
Fellers and Walton continue to
"Toss Tommy." They are held from
last week because Alexander Panage
credits them with the record business
of the last seven days.

Miss Lelia Morrison,
Saturday for an extended visit in Boston.

Card Party and Luncheon.—Mrs. Matthew J. Lancha of No. 1433 West Forty-fifth street, entertained with a card party and luncheon, Saturday afternoon, as a part of the celebration of the wedding of a recent bride. Plates were laid for Mrs. Fred Harris, Mrs. Edward Smith, Mrs. Weingart, Ross Bowler, the Rev. John H. Lamm, Mrs. Roy Fairchild, Mrs. C. D. Paulin, Mrs. Thomas Smith, Miss Reta Potts, Miss Maed Potts, Mrs. Harry Underhill, Mrs. J. W. Underhill, Mrs. Miller, Mrs. Margaret Wallace, Miss Comer, No. 812 West Fifty-second street, on last Friday evening, in honor of the wedding of the daughter of or Carl Almer O'bert. Mr. O'bert is the son of Mr. and Mrs. John F. O'bert of No. 1257 East Twenty-first street. The late Mrs. O'bert was on a four years' sea voyage. Music and what were features of the party, and the Rev. John H. Lamm, William U. Sheafor and John F. O'bert. The table decorations were suggestive of life on the ocean, and cards in the shape of sailing ships. The vessels marked places for the Misses Laurita Smith, Evelyn McKinnon, Mrs. J. W. Underhill, Mrs. J. W. Underhill, Mr. O'bert, Frederick Comer, William

The Flores and Jimenez went to San Dimas two weeks ago to work, leaving the woman and girl here.

The woman went to the County Hospital, leaving the girl without care. After a hard search by Sheriff's and Highway Patrol Officer Dennis McLaughlin, Flores and Jimenez were arrested on felony warrants.

The Norton woman was also arrested and her sister has been sent to the hospital home.

The Flores and Norton case will come before the Juvenile Court, Jimenez will have his preliminary hearing on Thursday. The Norton woman has been held in a police dispatch saying that her husband is dead from injuries received in a fight.

te well each time and take one or two spoonfuls of the mixture after each meal and at bed time." Any druggist will mix or supply these ingredients. The foregoing formula comes from high medical authority and will produce quick and permanent results. It will speedily relieve backache, rheumatic pains, frequent and highly colored urination. These symptoms of kidney trouble must have prompt attention to prevent Bright's disease or diabetes.

FINANCIAL NEWS

SUMMARY.

NEW YORK, Jan. 29.—(Exclusive Dispatch.)—The market for gold and silver was quiet today, with gold at 133 1/2 and silver at 61 1/2.

Interbros to file new railway proposal today or tomorrow.

House expected to pass steel tariff bill today.

Interstate Commerce Commission suspends Illinois soft coal rate advance to June 1.

Express companies to submit testimony in rate hearing before Interstate Commerce Commission to be resumed today.

James J. Hill and L. W. Hill deny Hill lines are seeking interest in Gould roads.

Twelve industrial decreased 9 1/2 per cent; twenty active raised 1 1/2 per cent.

A continuation of the selling which started in the stock market on Friday was in evidence during today's session, and while it is true there were some signs of support in the active issues, still, on the whole, the market was not strong enough to stem the tide of realization and professional selling.

The attitude of London and the continent was a factor during the forenoon, and pressure from that quarter did much toward causing rather sharp declines at opening.

The news with regard to international politics was not entirely reassuring and, in addition, the advice from Washington, which denoted that strenuous efforts were being put forth tending toward the promotion of the investigation of the so-called money trust, exerted an unfavorable influence.

Of course, there has been much talk of the probable ill-effects of constant trust bailing and political demagoguery during the past year that many persons are inclined to look in other directions for the cause of the unsettlement and hesitancy now in evidence in the security market and in fields of commercial and industrial endeavor, but still the fact must be borne in mind that substantial interests are still disposed to the view that politics, both domestic and international, are dominating influences at this time and as a consequence have assumed a neutral attitude and in fields of things to follow the course most natural under such conditions.

While, perhaps even pessimism should be diluted with moderation at times such as those through which we are now passing, still it is well to keep close observation that the immediate tendency of the stock market is toward a somewhat lower level.

The attitude of London and the continent was a factor during the forenoon, and pressure from that quarter did much toward causing rather sharp declines at opening.

The news with regard to international politics was not entirely reassuring and, in addition, the advice from Washington, which denoted that strenuous efforts were being put forth tending toward the promotion of the investigation of the so-called money trust, exerted an unfavorable influence.

Of course, there has been much talk of the probable ill-effects of constant trust bailing and political demagoguery during the past year that many persons are inclined to look in other directions for the cause of the unsettlement and hesitancy now in evidence in the security market and in fields of commercial and industrial endeavor, but still the fact must be borne in mind that substantial interests are still disposed to the view that politics, both domestic and international, are dominating influences at this time and as a consequence have assumed a neutral attitude and in fields of things to follow the course most natural under such conditions.

While, perhaps even pessimism should be diluted with moderation at times such as those through which we are now passing, still it is well to keep close observation that the immediate tendency of the stock market is toward a somewhat lower level.

NEW YORK, Jan. 29.—(Exclusive Dispatch.)—The market for citrus fruit was quiet today, with oranges at 10 1/2 and lemons at 12 1/2.

Interbros to file new railway proposal today or tomorrow.

House expected to pass steel tariff bill today.

Interstate Commerce Commission suspends Illinois soft coal rate advance to June 1.

Express companies to submit testimony in rate hearing before Interstate Commerce Commission to be resumed today.

James J. Hill and L. W. Hill deny Hill lines are seeking interest in Gould roads.

Twelve industrial decreased 9 1/2 per cent; twenty active raised 1 1/2 per cent.

A continuation of the selling which started in the stock market on Friday was in evidence during today's session, and while it is true there were some signs of support in the active issues, still, on the whole, the market was not strong enough to stem the tide of realization and professional selling.

The attitude of London and the continent was a factor during the forenoon, and pressure from that quarter did much toward causing rather sharp declines at opening.

The news with regard to international politics was not entirely reassuring and, in addition, the advice from Washington, which denoted that strenuous efforts were being put forth tending toward the promotion of the investigation of the so-called money trust, exerted an unfavorable influence.
